CONSOLIDATED FINANCIAL STATEMENTS AND

REPORT OF INDEPENDENT ACCOUNTANTS

December 31, 2017 and 2016

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

REPORT OF INDEPENDENT ACCOUNTANTS TRANSLATED FROM CHINESE

PWCR17003445

To the Board of Directors and Shareholders of President Securities Corporation

Opinion

We have audited the accompanying consolidated balance sheets of President Securities Corporation and its subsidiaries as of December 31, 2017 and 2016, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of President Securities Corporation and its subsidiaries as at December 31, 2017 and 2016, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the "Regulations Governing the Preparations of Financial Reports by Securities Firms", "Regulations Governing the Preparation of Financial Reports by Futures Commission Merchants", and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the "Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants" and generally accepted auditing standards in the Republic of China (ROC GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of President Securities Corporation and its subsidiaries in accordance with the Code of Professional Ethics for Certified Public Accountants in the Republic of China (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

The key audit matters of the consolidated financial statements of the current period as below:

Impairment assessment of investments accounted for under equity method

Description

Please refer to Note 4(15) for accounting policies on investments accounted for under equity method and its impairment, Note 5(2) for the uncertainty of accounting estimates and assumptions applied on asset impairment, and Note 6(13) for details of investments accounted for under equity method.

President Securities Corporation and its subsidiaries held 42.49% of equity of Uni-President Asset Management Corp. which was accounted for under equity method. As of December 31, 2017, the amount was \$496,497 thousand New Taiwan Dollars. Impairment assessment is based on the expected future cash flow of the investments accounted for under equity method, discounted at appropriate discount rate, to measure the recoverable amount of the cash generating unit.

The recoverable amount of the investee is based on its expected future cash flows which involve multiple estimates and assumptions on discount rate and financial forecast. They are subjective judgements, have high degree of uncertainties, and are material to the recoverable amount. Thus, we consider the impairment assessment of investments accounted for under equity method as one of the matters of most significance to our audit.

How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

- 1.Obtained the impairment assessment report prepared by an external expert who was commissioned by the management, and reviewed results of financial forecast in the past to assess its ability of execution;
- 2. Assessed the reasonableness of expected future cash flow, discount rate and other significant

assumptions applied in the cash flow model; and

3.Inspected valuation model parameters, formula setting and the accuracy of calculation.

Impairment assessment of goodwill

Description

Please refer to Note 4(19) for accounting policies on goodwill, Note 5(2) for the uncertainty of accounting estimates and assumptions applied on goodwill, and Note 6(16) for details of goodwill.

The goodwill resulted from President Securities Corporation and its subsidiaries's acceptance of transfer of the retail banking security brokerage business amounting to \$42,004 thousand New Taiwan Dollars as of December 2017. Impairment assessment is based on the expected future cash flow of the security brokerage segment, discounted at appropriate discount rate, to measure the recoverable amount of the cash generating unit.

The recoverable amount of the investee is based on its expected future cash flows which involve multiple estimates and assumptions on discount rate and financial forecast. They are subjective judgements, have high degree of uncertainties, and are material to the recoverable amount. Thus we consider the impairment assessment of goodwill as one of the matters of most significance to our audit.

How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

- 1.Obtained the impairment assessment report prepared by an external expert who was commissioned by the management;
- 2. Assessed the reasonableness of expected future cash flow, discount rate and other significant assumptions applied in the cash flow model; and
- 3.Inspected valuation model parameters, formula setting and the accuracy of calculation.

Other matter - Parent company only financial reports

We have audited and expressed an unmodified opinion on the parent company only financial statements of President Securities Corporation, as at and for the years ended December 31, 2017 and 2016.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the "Regulations Governing the Preparations of Financial Reports by Securities Firms", "Regulations Governing the Preparation of Financial Reports by Futures Commission Merchants", and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing President Securities Corporation and its subsidiaries's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate President Securities Corporation and its subsidiaries or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing President Securities Corporation and its subsidiaries's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ROC GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ROC GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1.Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks,

and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- 2.Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of President Securities Corporation and its subsidiaries's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the President Securities Corporation and its subsidiaries's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause President Securities Corporation and its subsidiaries to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6.Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within President Securities Corporation and its subsidiaries to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Hsiao, Chin-Mu Chang, Ming-Hui For and on behalf of PricewaterhouseCoopers, Taiwan March 26, 2018

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and report of independent accountants are not intended for

of China, and their applications in practice.

As the financial statements are the responsibility of the management, PricewaterhouseCoopers cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

PRESIDENT SECURITIES CORPORATION NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

(Expressed in thousands of New Taiwan dollars)

1. HISTORY AND ORGANIZATION

- 1) President Securities Corporation (the "Company") was incorporated as a company limited by shares under the provisions of the Company Law of the Republic of China (R.O.C.) on December 17, 1988, and was renamed as President Securities Corporation on March 4, 1989. The Company started commercial operations on April 3, 1989. As of December 31, 2017, the Company had 36 operating branches (including the Head Office), and established Offshore Securities Unit in July 2014.
- 2) The Company and its subsidiaries (collectively referred herein as the "Group") are primarily engaged in underwriting of securities, dealing or brokerage business of securities at the securities exchange markets and business premises, registration and transfer agency service for securities, margin loans and short sales business of securities, securities lending and borrowing business, futures introducing brokerage services, futures dealing, issuance of call (put) warrants, new financial instrument transactions, wealth management business, and trust business.
- 3) The Company's shares are listed on the Taiwan Stock Exchange.
- 4) The number of employees of the Group was 1,706 and 1,744 as of December 31, 2017 and 2016, respectively.

2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE CONSOLIDATED

FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION

These consolidated financial statements were authorized for issuance by the Board of Directors on March 26, 2018.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments endorsed by FSC effective from 2017 are as follows:

	Effective Date by
	International Accounting
New Standards, Interpretations and Amendments	Standards Board
Amendments to IFRS 10, IFRS 12 and IAS 28, 'Investment entities:	January 1, 2016
applying the consolidation exception'	
Amendments to IFRS 11, 'Accounting for acquisition of interests in joint operations'	January 1, 2016
IFRS 14, 'Regulatory deferral accounts'	January 1, 2016
Amendments to IAS 1, 'Disclosure initiative'	January 1, 2016
Amendments to IAS 16 and IAS 38, 'Clarification of acceptable	January 1, 2016
methods of depreciation and amortisation'	
Amendments to IAS 16 and IAS 41, 'Agriculture: bearer plants'	January 1, 2016
Amendments to IAS 19, 'Defined benefit plans: employee contributions'	July 1, 2014
Amendments to IAS 27, 'Equity method in separate financial statements'	January 1, 2016
Amendments to IAS 36, 'Recoverable amount disclosures for non-financial assets'	January 1, 2014
Amendments to IAS 39, 'Novation of derivatives and continuation of hedge accounting'	January 1, 2014
IFRIC 21, 'Levies'	January 1, 2014
Annual improvements to IFRSs 2010-2012 cycle	July 1, 2014
Annual improvements to IFRSs 2011-2013 cycle	July 1, 2014
Annual improvements to IFRSs 2012-2014 cycle	January 1, 2016

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by FSC effective from 2018 are as follows:

New Standards, Interpretations and Amendments	Standards Board
Amendments to IFRS 2, 'Classification and measurement of share-	January 1, 2018
based payment transactions'	·
Amendments to IFRS 4, 'Applying IFRS 9 Financial instruments with	January 1, 2018
IFRS 4 Insurance contracts'	
IFRS 9, 'Financial instruments'	January 1, 2018
IFRS 15, 'Revenue from contracts with customers'	January 1, 2018
Amendments to IFRS 15, 'Clarifications to IFRS 15 Revenue from	January 1, 2018
contracts with customers'	
Amendments to IAS 7, 'Disclosure initiative'	January 1, 2017
Amendments to IAS 12, 'Recognition of deferred tax assets for	January 1, 2017
unrealised losses'	January 1, 2017
Amendments to IAS 40, 'Transfers of investment property'	January 1, 2018
IFRIC 22, 'Foreign currency transactions and advance consideration'	January 1, 2018
Annual improvements to IFRSs 2014-2016 cycle- Amendments to	
IFRS 1, 'First-time adoption of international financial reporting	January 1, 2018
standards'	
Annual improvements to IFRSs 2014-2016 cycle- Amendments to	January 1, 2017
IFRS 12, 'Disclosure of interests in other entities'	January 1, 2017
Annual improvements to IFRSs 2014-2016 cycle- Amendments to	January 1, 2018
IAS 28, 'Investments in associates and joint ventures'	January 1, 2016

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

A. IFRS 9, "Financial instruments"

- (a) Classification of debt instruments is driven by the entity's business model and the contractual cash flow characteristics of the financial assets, which would be classified as financial asset at fair value through profit or loss, financial asset measured at fair value through other comprehensive income or financial asset measured at amortized cost. Equity instruments would be classified as financial asset at fair value through profit or loss, unless an entity makes an irrevocable election at inception to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument that is not held for trading.
- (b) The impairment losses of debt instruments are assessed using an 'expected credit loss' approach. An entity assesses at each balance sheet date whether there has been a significant increase in credit risk on that instrument since initial recognition to recognize 12-month expected credit losses ('ECL') or lifetime ECL (interest revenue would be calculated on the gross carrying amount of the asset before impairment losses occurred); or if the instrument that has objective evidence of impairment, interest revenue after the impairment would be calculated on the book value of net carrying amount (i.e. net of credit allowance). The Group shall always measure the loss allowance at an amount equal to lifetime expected credit losses for trade receivables that do not contain a significant financing component.
- (c) The amended general hedge accounting requirements align hedge accounting more closely with an entity's risk management strategy. Risk components of non-

financial items and a group of items can be designated as hedged items. The standard relaxes the requirements for hedge effectiveness, removing the 80-125% bright line, and introduces the concept of 'rebalancing'; while its risk management objective remains unchanged, an entity shall rebalance the hedged item or the hedging instrument for the purpose of maintaining the hedge ratio.

Effect of

B. When adopting the new standards endorsed by the FSC effective from 2018, the Group will apply the new rules under IFRS 9 retrospectively from January 1, 2018, with the practical expedients permitted under the statement. The significant effects of applying the new standard as of January 1, 2018 are summarized below:

		Effect of		
		adoption of		
Consolidated balance sheet	2017 version	new	2018 version	
Affected items	IFRSs amount	standards	IFRSs amount	Remark
January 1, 2018	_			
Financial assets at fair value				(b)
through profit or loss	\$38,742,727	\$ 20,146	\$38,762,873	(b)
Available-for-sale financial assets	1,044,031	(1,044,031)	-	
Financial asssets at fair value				
through other comprehensive	-	1,611,338	1,611,338	(a)
income				
Financial assets at cost	40,173	(40,173)	-	(a)~(b)
Investments accounted for under	40 < 40 7	20.264	505.761	(c)
equity method	496,497	39,264	535,761	(0)
Total affected assets	\$40,323,428	\$ 586,544	\$40,909,972	
Unappropriated earnings	\$ 2,519,721	\$ 17,538	\$ 2,537,259	(b)
Other equity interest	(58,374)	555,713	497,339	(a) \c)
Non-controlling interest	49,308	13,293	62,601	(d)
Total affected equity	2,510,655	586,544	3,097,199	
Total affect liabilities and equity	\$ 2,510,655	\$ 586,544	\$ 3,097,199	

- (a) In accordance with IFRS 9, the Group expects to reclassify financial assets at cost in the amounts of \$37,565, and make an irrevocable election at initial recognition on equity instruments not held for dealing or trading purpose, by increasing financial assets at fair value through other comprehensive income and other equity interest in the amounts of \$567,307 and \$516,449, respectively.
- (b) In accordance with IFRS 9, the Group expects to reclassify financial assets at cost in the amounts of \$2,608, by increasing financial assets at fair value through profit or loss and increasing retained earnings in the amounts of \$20,146 and \$17,538, respectively.
- (c) In accordance with IFRS 9, the Group expects to increase \$39,264 for both investments accounted for under equity method and other equity interest by share of other comprehensive income of associates accounted for under equity method.
- (d) In accordance with IFRS 9, the Group expects to increase non-controlling interests in

the amount of \$13,293 by share of book value of subsidiaries' other equity attributable to non-controlling interests.

3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs endorsed by the FSC are as follows:

•	Effective Date by
	International Accounting
New Standards, Interpretations and Amendments	Standards Board
Amendments to IFRS 9, 'Prepayment features with negative compensation'	January 1, 2019
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of	To be determined by
assets between an investor and its associate or joint venture'	International Accounting
assets between an investor and its associate or joint venture	Standards Board
IFRS 16, 'Leases'	January 1, 2019
IFRS 17, 'Insurance contracts'	January 1, 2021
Amendments to IAS 19, 'Plan amendment, curtailment or settler	January 1, 2019
Amendments to IAS 28, 'Long-terminterests in associates and joint	January 1, 2019
IFRIC 23, 'Uncertainty over income tax treatments'	January 1, 2019
Annual improvements to IFRSs 2015-2017 cycle	January 1, 2019

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment. The quantitative impact will be disclosed when the assessment is complete.

A. IFRS 16, "Leases"

IFRS 16, 'Leases', replaces IAS 17, 'Leases' and related interpretations and SICs. The standard requires lessees to recognize a 'right-of-use asset' and a lease liability (except for those leases with terms of 12 months or less and leases of low-value assets). The accounting stays the same for lessors, which is to classify their leases as either finance leases or operating leases and account for those two types of leases differently. IFRS 16 only requires enhanced disclosures to be provided by lessors.

4. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u>

The Group's significant accounting policies are described below:

1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Firms", "Regulations Governing the Preparation of Financial Reports by Futures Commission Merchants", and the International Accounting Standards No.34, 'Interim financial reporting' endorsed by the FSC.

2) Basis of preparation

- A. Except for the following items, these consolidated financial statements have been prepared under the historical cost convention:
 - (A) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (B) Available-for-sale financial assets measured at fair value.
 - (C) Defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligations.

B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretation as endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

3) Basis of consolidation

- A. Basis for preparation of consolidated financial statements:
 - (A) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) control by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidated of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
 - (B) Intercompany transactions, balances and unrealized gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
 - (C) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.
 - (D) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity.
 - (E) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognized in profit or loss. All amounts previously recognized in other comprehensive income in relation to the subsidiary are reclassified to profit or loss, on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognized in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

B. Subsidiaries included in the consolidated financial statements:

Name of		Main Business	Owner	ship (%)
Investor	Name of Subsidiary	Activities	December 31, 2017	December 31, 2016
The Company	President Futures Corp. (President Futures)	Futures brokerage	96.69%	96.69%
"	President Capital Management Corp. (President Capital Management)	Securities investment consulting	100%	100%
"	President Securities (HK) Ltd.(President Securities (HK)) (Note 1)	Securities dealer, brokerage, underwriting and consulting	5.19%	5.19%
"	President Securities (BVI) Ltd.(President Securities (BVI))	Securities investment and holding company	100%	100%
"	President Insurance Agency Corp. (President Insurance Agency)	Insurance Agent	100%	100%
"	PSC Venture Capital Investment Company Limited (President Venture Capital)	Consultation of investment management and venture capital; other unprohibited or unrestricted businesses beyond the permit	100%	100%
President Securities (BVI)	President Securities (HK) Ltd. (Note 1)	Securities dealer, brokerage, underwriting and consulting	94.81%	94.81%
"	President Wealth Management (HK) Ltd.(President Wealth Management (HK))	Wealth management	100%	100%
"	President Securities (Nominee) Ltd. (President Securities (Nominee))	Nominee Service	100%	100%

Note 1: The Company holds all the shares of President Securities (HK) with President Securities (BVI).

4) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
 - (A) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
 - (B) Assets held mainly for trading purposes;

- (C) Assets that are expected to be realized within twelve months from the balance sheet date:
- (D) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
 - (A) Liabilities that are expected to be paid off within the normal operating cycle;
 - (B) Liabilities arising mainly from trading activities;
 - (C) Liabilities that are to be paid off within twelve months from the balance sheet date;
 - (D) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

5) Translation of foreign currency transactions

A. Foreign currency translation and presentation

Items included in the consolidated financial statements of the Group are measured using the currency of the primary economic environment in which the Group operates (the "functional currency"). Functional currency and bookkeeping currency of the Company and its domestic subsidiaries are all New Taiwan Dollars; functional currency and bookkeeping currency of overseas subsidiaries-President Securities (HK), President Wealth Management (HK), and President Securities (Nominee) are Hong Kong Dollars; and functional currency and bookkeeping currency of President Securities (BVI) are US Dollars. The consolidated financial statements are presented in New Taiwan Dollars.

B. Foreign currency transactions and balances

Foreign currency transactions denominated in a foreign currency or required to settle in a foreign currency are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Assets and liabilities denominated in foreign currency are translated by the closing exchange rate at balance sheet date. The closing exchange rate is determined by the market exchange rate. Non-monetary assets and liabilities denominated in foreign currencies which are carried at historical cost are re-translated at the exchange rates prevailing at the original transaction date. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income.

C. Translation of foreign operations

The operating results and financial position of all the group entities, associates and joint arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (A) Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
- (B) Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
- (C) All resulting exchange differences are recognized in other comprehensive income.

6) Cash and cash equivalents

- A. In the consolidated statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with banks, and other short-term highly liquid investments.
- B. Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

7) Financial assets and financial liabilities at fair value through profit or loss

- A. Financial assets and financial liabilities at fair value through profit or loss are financial assets and financial liabilities held for trading or financial assets and financial liabilities designated as at fair value through profit or loss on initial recognition. Financial assets and financial liabilities are classified in this category of held for trading if acquired principally for the purpose of selling or repurchasing in the short-term. Derivatives are also categorized as financial instruments held for trading unless they are designated as hedges.
- B. On a regular way purchase or sale basis, financial assets held for trading are recognized and derecognized using trade date accounting.
- C. Financial assets at fair value through profit or loss are initially recognized at fair value. Related transaction costs are expensed in profit or loss. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognized in profit or loss. Derivative assets, that are linked to equity instruments which do not have a quoted market price in an active market and cannot be measured reliably at fair value, and that must be settled by delivery, of such unquoted equity instruments are presented in 'financial assets measured at cost', if their fair value cannot be reliably measured. Derivative liabilities that are linked to equity instruments which do not have a quoted market price in an active market and cannot be measured reliably at fair value, and that must be settled by delivery of such unquoted equity instruments are presented in 'financial liabilities measured at cost', if their fair value cannot be reliably measured.

8) Available-for-sale financial assets

- A. Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories.
- B. On a regular way purchase or sale basis, available-for-sale financial assets are recognized and derecognized using trade date accounting.
- C. Available-for-sale financial assets are initially recognized at fair value plus transaction costs. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognized in other comprehensive income. Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured or derivatives that are linked to and must be settled by delivery of such unquoted equity instruments are presented in 'financial assets measured at cost.
- D. If there has been objective evidence of impairment, the Group will account for impairment. If, in a subsequent period, the fair value of an investment in a debt instrument increases, and the increase can be related objectively to an event occurring after the impairment loss was recognized, then such impairment loss is reversed through profit or loss. Impairment loss of an investment in an equity instrument recognized in profit or loss shall not be reversed through profit or loss. Impairment loss is recognized and reversed by adjusting the carrying amount of the asset through the use of an

impairment allowance account.

9) Notes and accounts receivable, other receivables and margin loans receivable

- A. Notes and accounts receivable and margin loans receivable are claims resulting from the sales of goods or services; other receivables are receivables other than the above. Notes and accounts receivable and margin loans receivable are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method less provision for impairment loss.
- B. The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A provision for impairment of financial asset is established when there is objective evidence that it is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. When the fair value of the asset subsequently increases and the increase can be objectively related to an event occurring after the impairment loss being recognized in profit or loss, the impairment loss shall be reversed to the extent of the loss previously recognized in profit or loss. Such recovery of impairment loss shall not make the asset's carrying amount greater than its amortized cost without impairment loss being recognized. The recoveries of amounts are recognized in profit or loss.

10) Bonds sold under repurchase agreements and bonds purchased under resale agreements

Bond transactions under repurchase or resale agreements are stated at the amount of actual payment or receipt. When transactions of bonds with a condition of resale agreements occur, the actual payment or receipt shall be recognized in 'bonds purchased under resale agreements' under current assets. When transactions of bonds with a condition of repurchase agreements occur, the actual payment or receipt shall be recognized in 'bonds sold under repurchase agreements' under current liabilities. Any difference between the actual payment/receipt and predetermined redemption (repurchase) price is recognized in interest income or interest expense.

11) Financial assets at cost – non-current

- A. Financial assets measured at cost are initially recognized at fair value plus transaction costs of acquisition. On a regular way purchase or sale basis, financial assets measured at cost are recognized and derecognized using trade date accounting.
- B. If the variability in the range of reasonable fair value estimate vary significantly, and the probabilities of the various estimates cannot be reasonably measured, the financial assets should be measured at cost.
- C. With respect to impairment assessment of the said financial asset, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at current market return rate of similar financial asset, and is recognized in profit or loss. Impairment loss recognized for this category shall not be reversed subsequently. Impairment loss is recognized by adjusting the carrying amount of the asset directly.

12) Impairment of financial assets

- A. The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.
- B. The criteria that the Group uses to determine whether there is an objective evidence of an impairment loss is as follows:

- (A) Significant financial difficulty of the issuer or debtor;
- (B) A breach of contract, such as a default or delinquency in interest or principal payments;
- (C) The Group, for economic or legal reasons relating to the borrower's financial difficulty, granted the borrower a concession that a lender would not otherwise consider;
- (D) It becomes probable that the borrower will enter bankruptcy or other financial reorganization;
- (E) The disappearance of an active market for that financial asset because of financial difficulties:
- (F) Observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial asset in the group, including adverse changes in the payment status of borrowers in the group or national or local economic conditions that correlate with defaults on the assets in the group;
- (G) Information about significant changes with an adverse effect that have taken place in the technology, market, economic or legal environment in which the issuer operates, and indicates that the cost of the investment in the equity instrument may not be recovered; or
- (H) A significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.
- C. When the Group assesses that there has been objective evidence of impairment and an impairment loss has occurred, accounting for impairment is made in accordance with aforesaid accounting policies of various financial assets.

13) Derecognition of financial instruments

A. Derecognition of financial assets

The Group derecognizes a financial asset when one of the following conditions is met:

- (A) The contractual rights to receive cash flows from the financial asset expire.
- (B) The contractual rights to receive cash flows from the financial asset have been transferred and the Group has transferred substantially all risks and rewards of ownership of the financial asset.
- (C) The contractual rights to receive cash flows of the financial asset have been transferred; however, the Group has not retained control of the financial asset.

B. Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability specified in the contract is discharged or cancelled or expires.

14) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

15) Investments accounted for under the equity method

A. Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognised at cost.

- B. The Group's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred statutory/constructive obligations or made payments on behalf of the associate.
- C. When changes in an associate's equity that are not recognized in profit or loss or other comprehensive income of the associate and such changes not affecting the Group's ownership percentage of the associate, the Group recognizes its share of change in equity of the associate in 'capital surplus' in proportion to its ownership.
- D. Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- E. When there are objective evidences of impairment, as stated in Note 4 (12), at balance sheet date, the Group considers the whole investment carrying amount as single asset, and compares its recoverable amount (value in use or fair value less costs of disposal) with the carrying amount, to test its impairment. Value in use is determined by the present value of the Group's share of the expected future cash flow from the associates. If the recoverable amount is less than its carrying amount, an impairment loss should be recognized. The loss will not be allocated to any of the components (including goodwill), which comprise the carrying amount of the investment. An impairment loss recognized in prior periods shall be reversed if circumstances of impairment no longer exist or have decreased.

16) Property and equipment

- A. Property and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property and equipment are subsequently measured using the cost model and depreciated using the straight-line method to allocate their cost over their estimated useful lives.

D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance sheet date. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property and equipment are as follows:

	<u>Useful lives</u>
Buildings	5~50 years
Furniture and fixtures	4~10 years
Computer equipment	3~5 years
Electrical equipment	3~10 years
Leasehold improvements	5 years

E. When an asset is sold or retired, the cost and accumulated depreciation are removed from the respective accounts and the resulting gain or loss is included in current operations.

17) <u>Investment property</u>

- A. Investment property of the Group is the property held either to earn long-term rental income or for capital appreciation or for both.
- B. Part of the property may be held by the Group for self-use purpose and the remaining are used to generate rental income or capital appreciation. If the property held by the Group can be sold individually, then the accounting treatment should be made respectively. If each part of the property cannot be sold individually and the self-use proportion is not material, then the property is deemed as investment property in its entirety.
- C. When the future economic benefit related to the investment property is highly likely to flow into the Group and the costs can be reliably measured, the investment property shall be recognized as assets. When the future economic benefit generated from subsequent costs is highly likely to flow into the entity and the costs can be reliably measured, the subsequent expenses of the assets shall be capitalized. All maintenance cost are recognized in profit or loss as incurred.
- D. Investment property is subsequently measured using the cost model. Depreciated cost is used to calculate amortization expense after initial measurement. The depreciation method, remaining useful life and residual value should apply the same rules as applicable for property and equipment.

18) <u>Intangible assets</u>

- A. The cost of computer software is amortized using the straight-line method over the useful lives based on acquisition cost, with an amortization period of 4 years.
- B. Customer relationships is amortized evenly over its estimated useful life of 3.6 years.
- C. Membership in a foreign futures exchange is stated at acquisition cost and has an indefinite useful life as it was assessed to generate continuous net cash inflow in the foreseeable future. It is not amortized, but is tested annually for impairment.
- D. In accordance with IFRS 3 'Business combinations' as endorsed by FSC, goodwill arises when the acquisition cost exceeds the fair value of identifiable assets and liabilities of the consolidated subsidiary on the consolidation date. The goodwill arising from the consolidated subsidiary is included in the intangible asset. Goodwill is tested annually for impairment and any impairment loss will be recognized when impairment occurs.

Impairment losses on goodwill are not reversed.

19) <u>Impairment of non-financial assets</u>

- A. The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.
- B. The recoverable amounts of goodwill, intangible assets with an indefinite useful life and intangible assets that have not yet been available for use are evaluated periodically. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. Impairment loss of goodwill previously recognized in profit or loss shall not be reversed in the following years.
- C. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units, or groups of cash-generating units, that is expected to benefit from the synergies of the business combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

20) Contingent liabilities

Contingent liability is a possible obligation that arises from past event, whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. Or it could be a present obligation as a result of past event but the payment is not probable or the amount cannot be measured reliably. The Group did not recognize any contingent liabilities but made appropriate disclosure in compliance with relevant regulations.

21) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expenses in that period when the employees render service.

B. Termination benefits

Termination benefits are employee benefits provided in exchange for the termination of employment as a result from either the Group's decision to terminate an employee's employment before the normal retirement date, or an employee's decision to accept an offer of redundancy benefits in exchange for the termination of employee. The Group recognized expense as it can no longer withdraw an offer of termination benefit or it recognizes relating restructuring costs, whichever is earlier. Benefits that are expected to be due more than 12 months after balance sheet date shall be discounted to their present value.

C. Pensions

(A) Defined contribution plans

Effective July 1, 2005, the Group established the defined contribution plan for employees of R.O.C. nationality. The employees have the option to participate in the New Plan. Under the New Plan, the Company contributes monthly an amount

equivalent to 6% of employees' salaries to the employees' personal pension accounts with the "Bureau of Labor Insurance". Benefits accrued under the New Plan are portable upon termination of employment. Net defined benefit asset can only be recognized when there is a cash refund or elimination in the future accrued pension liabilities.

(B) Defined benefit plans

- a. In a defined benefit plan, the pension paid is determined based on the amount that an employee shall receive upon retirement, which could vary with age, work seniority and salary compensations. The Group recognizes the accrued pension obligations in the consolidated balance sheet based on the net amount of actuarial present value of defined benefit obligation less the fair value of fund, which is adjusted with the net of past service cost recognized as liabilities. Defined benefit obligation is assessed annually using projected unit credit method by the actuary. The present value of the defined benefit obligation is determined using the market yield of government bonds of a currency and term consistent with the currency and term of the employment benefit obligations.
- b. Remeasurement arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- c. Pension cost for the interim period is calculated on a year-to-date basis by using the pension cost rate derived from the actuarial valuation at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events. And, the related information is disclosed accordingly.

D. Employees' remuneration and directors' remuneration

Employees' and directors' remuneration are recognized as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates.

22) Revenues and expenses

The Group's revenues and expenses are recognized as incurred, which mainly include:

- A. Gains (losses) on sale of securities, securities brokerage fees, and commissions on brokerage and trading are recognized on the transaction date.
- B. Underwriting fees and related service charges: application fees are recognized upon collection; underwriting fees and service charges are recognized when the contract is completed.
- C. Gains (losses) on futures contracts: The margin of futures transaction is recognized as cost. Costs and expenses are recognized as incurred.
- D. Operating expenses: operating expenses refer to required expenses invested in the Group's operations, which primarily include employee benefit expense, depreciation and amortization, and other business and administrative expenses.

23) Income tax

A. Current income tax

Income tax payable (refundable) is calculated on the basis of the tax laws enacted in the countries where a company operates and generates taxable income. Except for the transactions or other matters directly recognized in other comprehensive income or equity, in which cases the related income taxes in the period are recognized in other comprehensive income or directly derecognized from equity, all the others should be recognized as income or expense for the period.

B. Deferred income tax

Deferred income tax assets and liabilities are measured based on the tax rate of the anticipated period that the future assets realization or the liabilities settlement requires, which is based on the effective or existing tax rate at the consolidated balance sheet date. The carrying amounts and temporary differences of assets and liabilities included in the consolidated balance sheet are calculated using the liability method and recognised as deferred income tax. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit (loss). Deferred income tax assets are recognized only to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilized. If the future taxable income is probable to provide unused loss carryforwards or deferred income tax credit which can be realized in the future, the proportion of realization is deemed as deferred income tax asset.

- C. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Group operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions for income tax liabilities where appropriate based on the amounts expected to be paid to the tax authorities. An additional 10% tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- D. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.
- E. The interim period income tax expense is recognized based on the estimated average annual effective income tax rate expected for the full financial year applied to the pretax income of the interim period, and the related information is disclosed accordingly.

24) Share capital

- A. Incremental costs directly attributable to the issuance of new shares are shown as a deduction, net of tax, from equity. Dividends from common stocks are recognized as equity in the financial period in which they are approved by the Company's shareholders. If the date of dividends declared is later than the consolidated balance sheet date, common stocks are disclosed in the subsequent events.
- B. Where the Company repurchases the Company's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

25) Earnings per share

A. Earnings per share is calculated by dividing net income by the weighted average number of shares outstanding during the year after taking into consideration the retroactive effect of stock dividends and capital reserve capitalized.

B. When the Group calculates earnings per share, basic earnings per share and diluted earnings per share for all potential ordinary shares shall all be disclosed in accordance with IAS 33 "Earnings per share".

26) Operating segments

The Group's operating segments are reported in a manner consistent with the internal reports provided to the Chief Operating Decision-Maker. The Group's performance of segment profit (loss) is assessed based on the profit (loss) before tax, but not segment income, assets and liabilities. The Chief Operating Decision-Maker is responsible for allocating resources and assessing performance of the operating segments.

(Blank below)

5. <u>CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY</u>

- 1) As the consolidated financial statements of the Group may be affected by the adoption of accounting policy, accounting estimate and assumption, the Group's management shall properly exercise its professional judgement, estimates, and assumptions on the information of the key risks that is obtained from other resources and could affect the carrying amounts of financial assets and liabilities in the next fiscal year while adopting critical accounting policies as stated in Note 4. Estimates and assumptions of the Group are the best estimates made in compliance with IFRSs as endorsed by the FSC. Estimates and assumptions are made based on past experience and other factors deemed relevant; however, the actual results may differ from the estimates. The Group evaluates the estimates and assumptions on an ongoing basis and recognizes the adjustment of the estimates only in the period which is affected by the adjustment. If the adjustment simultaneously affects both the current and future periods, it should be recognized in both periods.
- 2) Relevant information on key assumptions to be made in the future, key sources of assumption uncertainty made at balance sheet date, and assumptions and estimates that may cause key risks that could affect the carrying amounts of financial assets and liabilities are as follows:

A. Fair value of financial instruments

Financial instruments with no active market or quoted price use valuation technique to determine the fair value. Under such condition, fair value is assessed through the observable information or models of similar financial instruments. If there is no observable input available in a market, the fair value of financial instrument is assessed through appropriate assumptions. When valuation models are adopted to determine the fair value, all the models should be calibrated to ensure that the output can actually reflect actual information and market price. Models should try to take only observable information as much as possible.

B. Impairment assessment on investment accounted for under equity method When there are impairment indicators that show the investments accounted for under equity method are impaired and the carrying amount can no longer be recovered, the Group will assess the impairment of the investment. The Group assess its share of the recoverable amount which is based on the discounted value of expected cash flow, and assess the reasonableness of relevant assumptions, including revenue growth rate, operating profit margin, net profit margin, financial forecast, and discount rate.

C. Impairment assessment of goodwill

Impairment assessment of goodwill includes allocation of assets, liabilities, and goodwill to brokerage segment, and determines the recoverable amount based on brokerage segment's present value of expected future cash flow. The assessment also analyzes reasonableness of relevant assumptions, including expected future trading volumes, market share, segment's operating profit margin, and discount rates.

6. <u>DETAILS OF SIGNIFICANT ACCOUNTS</u>1) <u>Cash and cash equivalents</u>

		mber 31, 2017	December 31, 2016	
Petty Cash	\$	169	\$	181

	Others		893	-	835
	Total	\$	1,792,864	\$	1,939,900

10) Transfer of financial assets

- A. During the Group's activities, the transferred financial assets that do not meet derecognition conditions are mainly debt instruments with purchase agreements or debt instruments lent out in accordance with securities borrowing and lending agreement. The cash flow of the contract has been transferred and related liabilities of transferred financial assets that will be repurchased at a fixed price in the future have been reflected. The Group may not use, sell or pledge the transferred financial assets during the valid period of the transaction. The financial assets were not derecognized as the Group is still exposed to interest rate risk and credit risk.
- B. Financial assets that do not meet the derecognition conditions and related financial liabilities are analysed below:

December 31	, 2017				
		rying amount of	Carrying amount of		
		sferred financial	related financial		
Financial assets category		assets	liabilities		
Financial assets measured at fair value

Available-for-sale financial assets					

11) Offsetting financial assets and financial liabilities

Repurchase agreement

A.The Group has transactions that are or are similar to net settled master netting arrangements but do not meet the offsetting criteria, i.e. derivative financial instruments, resale and repurchase agreements. If one party breaches the contract, the counterparty can choose to use net settlement for the above transactions.

658,290

630,202

B.The offsetting of financial assets and financial liabilities are set as follows:

(1) Financial assets

A NT - :								2017

- A. No interest was capitalized for intangible assets for the years ended December 31, 2017 and 2016.
- B. Goodwill and customer relationships were acquired through acceptance of transfer of the securities brokerage business of Standard Chartered (Taiwan) Bank's retail banking business, and were all allocated to the Group's brokerage segment.
- C. The recoverable amount of goodwill was determined based on its value in use.

Calculations of value in use after-tax cash flow projections are based on financial budgets approved by the management covering a five-year period. Cash flows beyond the five-year period are extrapolated using the estimated growth rates stated below. The recoverable amount calculated based on the value in use exceeded the carrying amount, thus the goodwill was not impaired. The key assumptions used for calculation of value in use are as follows:

	Brokerage Se	egment
	2017	2016
Growth rate	0.00%	0.00%
Discount rate	17.49%	17.89%

Management determined the growth rate based on past performance and its expectations of market development. The discount rates were based on the weighted average financing cost rates determined by the Company's capital asset pricing model. The discount rates also reflect specific risks related to relevant operating segments.

Among the warrants issued by the Group, except for contract-based warrants which are European-style warrants, all other warrants are American-style warrants. Warrants are stated as liabilities for issuance of warrants at issuance price prior to expiration. Upon repurchase of warrants after issuance, the repurchased amounts are recognised as warrants repurchase and charged as a deduction to liabilities for issuance of warrants. The warrants have six to sixteen months exercise period from the date of issuance. The issuer has the option to settle either by cash or stock delivery.

21) Bonds sold under repurchase agreements

	Dece	December 31, 2016

The Group deals in equity-linked products and combines fixed income instruments with call or put options. These products are categorized into ELN (Equity-Linked Notes) and PGN (Principal Guaranteed Notes). On trade date, the contracted amounts are collected in full from the counterparties. The payout amount on maturity will depend on the price fluctuation of the instruments linked to these contracts and be calculated as trading price less option strike price on maturity. All the linked products are financial instruments under the supervision of the SFB (Securities and Futures Bureau).

Total	\$	59,873	\$	13,110	

26) Pension plan

A. Defined benefit plans

- (A) The Group has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. The Group contributes monthly an amount which ranges between 2.0% and 7.2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the supervisory committee of workers' retirement reserve fund, and with Cathay United Bank, under the name of the management committee of employees' retirement fund. Also, the Group would assess the balance in the aforementioned labor pension reserve account by the end of December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method, to the employees expected to be qualified for retirement next year, the Group will make contributions to cover the deficit by next March.
- (B) The amounts recognized in the balance sheet are determined as follows:

	Decemb	oer 31, 2017	Dec	cember 31, 2016
Present value of defined benefit obligations	\$	833,570	\$	717,768
Fair value of plan assets	(778,415)	(754,575)

(D) The Bank of Taiwan was commissioned to manage the Fund of the Group's defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Group has no right to participate in managing and operating that fund and hence the Group is unable to disclose the classification of plan asset fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2017 and 2016 is given in the Annual Labor Retirement Fund Utilisation Report published by the government. In addition, for retirement fund deposits with Cathay United Bank, under the name of the management committee of employees' retirement fund, the fund invests in time deposit accounts under Cathay United Bank.

(E) The principal actuarial assumptions used were as follows:

	For the year ended	For the year ended
	December 31,	December 31,
	2017	2016
Discount rate	1.20%~1.30%	1.40%~1.50%
Future salary increases	2.00%~3.00%	2.00%~3.00%

Assumptions regarding future mortality rate are set based on the Taiwan Standard Ordinary Experience Mortality Table (2011).

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discount rate			Future salary increases				
	Increas	se 0.25%	Decrea	se 0.25%	Increa	se 0.25%	Decrea	se 0.25%
December 31, 2017	_							
Effect on present value of defined benefit obligation	(<u>\$</u>	20,626)	\$	21,352	\$	18,946	(<u>\$</u>	18,429)
December 31, 2016 Effect on present value of defined benefit obligation	(\$	18,643)	\$	19,328	\$	17,294	<u>(\$</u>	16,797)

(F) Expected contributions to the defined benefit pension plans of the Group for the year ending December 31, 2018 amounts to \$45,187.

B. Defined contribution plans:

Effective from July 1, 2005, the Group established a defined contribution plan pursuant to the "Labor Pension Act", which covers employees with R.O.C. nationality and those who chose or are required to apply the "Labor Pension Act". The contributions are made monthly based on not less than 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The payment of pension benefits is based on the employees' individual pension fund accounts and the cumulative profit in such accounts. The employees can choose to receive such pension benefits monthly or in lump sum. The pension costs under defined contribution pension plans of the Group for the years ended December 31, 2017 and 2016 were \$59,860 and \$59,907, respectively.

C. President Securities (HK), President Wealth Management (HK), and President Securities (Nominee) have defined benefit pension plans in accordance with local laws, and recognised the current pension expenses by contributing to the accrued pension assets. President Securities (HK) recognised pension expenses of \$2,231 and \$2,585, respectively, for the years ended December 31, 2017 and 2016.

27) Equity

A. Common stock

(A) As of December 31, 2017, the Company's authorized capital was \$15,000,000 with a par value of \$10 (in dollars) per share. As of December 31, 2017 and 2016, the common stocks issued were 1,390,428 and 1,335,666 thousand shares, respectively, and the outstanding common stocks were 1,390,428 and 1,335,666 thousand shares, respectively.

Movements in the number of the Company's ordinary shares outstanding are as follows:

(Expressed in thousands)

	Year ended December 31, 2017	Year ended December 31, 2016			
January 1	1,335,666	1,303,796			
Acquisition of treasury stocks	- ((8,548)			
Stock dividends	54,762	40,418			
December 31	1,390,428	1,335,666			

The Company increased capital through capitalization of unappropriated retained earnings of \$547,623 by issuing 54,762 thousand shares at par value of \$10 per share approved by the Board of Director on March 23, 2017 and resolved by stockholders' meeting on June 22, 2017. The effective date was set on August 9, 2017. After the capital increase, the issued share capital was expected to be \$13,904,281, consisting of 1,390,428 thousand shares of ordinary stock at par value of \$10 per share.

(B) Treasury shares

In order to maintain the Company's integrity and stockholders' interest, the Company's Board of Directors resolved to buy back outstanding shares totaling 30,000 thousand shares on January 27, 2016.

The movement of the number of treasury shares from the Group's buyback and its period end amount is as follows:

	Year e	nded Decem	ber 31, 2016			
	Shares at the			Shares at		
Reason for	beginning of	Period	Period	the end of	Period-en	ıd
buy back	the period	increase	decrease	the period	amount	
To maintain the						
Company's						
integrity						
and stockholders'					_	
equity	19,323	8,548	(27,871)		<u>\$</u> -	_

- a. Pursuant to the R.O.C. Securities and Exchange Law, the number of shares bought back as treasury share should not exceed 10% of the number of the Company's issued and outstanding shares and the amount bought back should not exceed the sum of retained earnings, paid-in capital in excess of par value and realized capital surplus.
- b. Pursuant to the R.O.C. Securities and Exchange Law, treasury shares should not be pledged as collateral and is not entitled to dividends before it is reissued.
- c. Pursuant to the R.O.C. Securities and Exchange Law, treasury shares should be reissued to the employees within three years from the reacquisition date and shares not reissued within the three-year period are to be retired. Treasury shares to enhance the Company's credit rating and the stockholders' equity should be retired within six months of acquisition.

d. On January 27 and May 5, 2016, the Board of Directors resolved to retire the treasury shares. On March 7 and May 20, 2016, the Company completed the registration of changes in capital. On March 8 and May 23, 2016, the Company obtained the Jing-Shou-Shang Zi. No. 10501036780 and No. 10501102910 issued by the Ministry of Economic Affairs as an approval for retirement of the treasury shares.

Difference between

B. Capital reserve

			Difference between					
				consideration and				
			carrying amount of					
		Treasury share	Expired stock	subsidiaries acquired				
	Share premium	transactions	options	or disposed	Total			
December 31, 2017	\$ 24,986	\$ 116,793	\$ 483	\$ 440	\$ 142,702			
December 31, 2016	\$ 24.986	\$ 116.793	\$ 483	\$ 440	\$ 142,702			

Pursuant to the R.O.C. Company Law, capital reserve arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided it should not exceed 10% of the paid-in capital each year. Capital reserve should not be used to cover accumulated deficit unless the legal reserve is insufficient.

C. Legal reserve

Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the balance of the reserve exceeds 25% of the Company's paid-in capital.

D. Special reserve

According to the "Rules Governing the Administration of Securities Firms", 20% of the current year's earnings, after paying all taxes and offsetting prior years' operating losses, if any, shall be set aside as special reserve until the cumulative balance equals the total amount of paid-in capital. The special reserve shall be used exclusively to cover accumulated deficit or to increase capital and shall not be used for any other purpose. Such capitalization shall not be permitted unless the Company had already accumulated a special reserve of at least 25% of its paid-in capital stock and only quarter of such special reserve may be capitalized.

In accordance with the regulations, the Company shall set aside an equivalent amount of special reserve from accumulated unappropriated retained earnings of the current year based on the decreased amount of equity. If there is any subsequent reversal of the decrease in equity, the earnings may be distributed based on the reversal proportion. According to Jing-Guan-Zheng-Chuan Letter No. 10500278285, from fiscal year 2016 to 2018, securities firm shall provide 0.5% to 1% of profit after tax as special reserve before distributing earnings. According to Jin-Guan-Zheng-Chuan Letter No. 1060005703, special provision shall be provide after accumulated deficit is covered. From fiscal year 2017, the amount of employees' training for transition, transfer or arrangement expenditure arising from financial technology development can be reversed up to the amount of the abovementioned special reserve.

28) Unappropriated earnings and dividends policy

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall be used to pay all taxes and offset prior years' operating losses first, and then set aside as legal reserve, accounted for as 10% of the remaining amount, and special reserve, accounted for as 20% of the remaining amount. Upon provision or reversal of special reserve in accordance with the law, any remaining amount together with unappropriated earnings at beginning of the period shall be distributed according to the following resolution adopted at the stockholders' meeting: Distribution shall not be made if the balance of distributable earnings is less than 5% of paid-in capital.
- B. In addition, the total amount of dividends declared every year shall be at least 70% of distributable earnings, of which stock dividends shall be at least 50% and cash dividends shall be lower than 50%.
- C. The Company may determine a better proportion of cash and stock dividends distribution based on its actual operating conditions and capital utilization plan for the following year.
- D. The appropriation of 2016 and 2015 earnings was resolved by the shareholders on June 22, 2017 and June 14, 2016, respectively. Detail is as follows:

		For the year ended December			For the year ended December			
		31, 2016			31, 2015			
				share (in				share (in
		Amount		dollars)	Amount		dollars)	
Legal reserve	\$	79,851			\$	95,661		
Special reserve		159,701				191,323		
Special reserve (Note)		3,993				-		
Cash dividends		-	\$	-		260,759	\$	0.20
Stock dividends		547,623		0.41		404,177		0.31
	\$	791.168			\$	951.920		

Note: Special reserve was provided for employees' transition for financial technology development according to Jin-Guan-Zheng-Chuan Letter No. 10500278285 and Jin-Guan-Zheng-Qi-Chuan Letter No. 1060005703, and can be reversed for employees' transition. The Board of Directors of the Company resolved to provide 0.5% as special reserve on March 23, 2017.

E. The earnings distribution for 2017 as resolved by the Board of Directors on March 26, 2018 is set forth below:

	F	For the year ended December			
		31,	2017		
			Dividen	ds per	
		Amount	share (in	dollars)	
Legal reserve	\$	251,972			
Special reserve		503,944			
Special reserve (Note1)		12,599			
Reversal of special reserve (Note1)	(3,023)			
Special reserve (Note2)		58,374			
Cash dividends		1,668,514	\$	1.20	
	\$	2,492,380			

- Note1: Special reserve was provided for employees' transition for financial technology development according to Jin-Guan-Zheng-Chuan Letter No. 10500278285 and Jin-Guan-Zheng-Qi-Chuan Letter No. 1060005703, and can be reversed for employees' transition. The Board of Directors of the Company resolved to provide 0.5% as special reserve on March 26, 2018.
- Note2: Special reserve shall be set aside in the same amount of net debit amount of other equity interest recorded in current year from the profit or loss of current year and the accumulated unappropriated earnings pursuant to paragraph 1 of Article 41 of Securities and Exchange Act and Jin-Guan-Zheng-Fa-Zi Letter No. 1010012865.
- F. For details on employees' remuneration and directors' remuneration, please refer to Note 6 (41).

- A. In accordance to the Company's Article of Incorporation, the remainder of the year-end income before taxes less income before appropriating employees' compensation and directors' remuneration, if any, shall appropriate an employees' compensation no less than 1.6% and directors' remuneration no more than 2%. However, when the Company has an accumulated deficit, earnings to cover the deficit shall first be retained before appropriating employees' compensation and directors' remuneration.
- B. For the year ended December 31, 2017 and 2016, employees' compensation was accrued at \$56,441 and \$18,080, respectively; directors' remuneration was accrued at \$56,441 and \$18,080, respectively. The aforementioned amounts were recognised in salary expenses.
- C. For the year ended December 31, 2017, employees' compensation was estimated at 2% and directors' remuneration at 2%, based on the year-end income before taxes less income before appropriating employees' compensation and directors' remuneration.
- D. The actual distributed amount of employees' and directors' remuneration for 2016 as resolved by the Board of Directors was in agreement with the estimates in the 2016 financial statements.
- E. Information on the appropriation of the Company's earnings as resolved by the Board of Directors would be posted in the "Market Observation Post System" on the Taiwan Stock Exchange official website.

For the year ended Decmeber 31, 2017

D. As of December 31, 2017, the Company's income tax returns through 2013 and 2015 have been assessed by the National Tax Authority. The income tax returns through 2015 of President Futures, President Capital Management, President Venture Capital and President Insurance Agency have also been assessed.

E. With the abolishment of the imputation tax system under the amendments to the Income Tax Act promulgated by the President of the Republic of China in February, 2018, the information on unappropriated retained earnings and the balance of the imputation credit account as of December 31, 2017, as well as the estimated creditable tax rate for the year ended December 31, 2017 is no longer disclosed.

Unappropriated retained earnings on December 31, 2016:

December 31, 2016
1998 and onwards
\$ 798,507

F. As of December 31, 2016, the balance of the imputation tax credit account and the creditable tax rate are \$540,187.

The imputation tax credit rate based on the appropriation of 2015 earnings is 20.63% in 2016;

46) Earnings per share

12. <u>OTHER</u>

1) Management objective and policy of financial risks

A. Risk management objective

The Group continually strengthens risk culture to every employee and makes sure that the Group can actively develop various businesses under a healthy and effective risk management system. At the same time, by creating value of an entity and continually increasing profit, profit maximization may be achieved within appropriate risk tolerance.

B. Risk management system

In order to ensure the completeness of risk management system, run the balancing mechanism of risk management, and improve the division efficiency of risk management, the Group sets up "Risk Management Policy". Such policy aims to establish internal system compliance and the guiding tools for policies communication within the Group and enable every layer of the Group engaged in different tasks to identify, evaluate, monitor, and control various risks with establishment of consistent compliance rules for risks of each business so that the risks can be controlled within the limits set in advance.

The Group's risk management system covers risks incurred from businesses in and off the balance sheet, such as market risk, credit risk, liquidity risk, operating risk, legal risk, model risk which are all included in the risk management.

C. Risk management organization

Risk management organization: Board of Directors, Risk Management Committee, Risk Control Office, Business units and other related segments (such as Office of Auditing, Office of General Manager, Compliance segment, Legal segment and Finance segment) are in charge of planning, supervising and execution.

- (A) The Board of Directors should ensure the effectiveness of risk management and be responsible for the ultimate result and the following duties:
 - a. To establish proper risk management system, operating process, and risk management culture in the Group with allocation of necessary resource for better execution and operation.
 - b. Policy of risk management review
 - c. Review and approval of business application, transaction authorization and risk limit
- (B) The Risk Management Committee reports to the Board of Directors and is responsible for the following:
 - a. Review risk management policy
 - b. Review the highest risk tolerance
 - c. Submit regular reports to the Board of Directors in relation to the risk management status of the whole Group
- (C) The General Manager supervises daily risk management of the entire Group and is responsible for the following:
 - a. Supervise and monitor daily risk management of the entire Group
 - b. Approval of management exceptions
- (D) Assets and Liabilities Committee reports to the General Manager and is responsible for the following:
 - a. Set up the ultimate guidelines for assets and liabilities management of the entire Group
 - b. Analyze and control the entire Group's assets and liabilities portfolio
 - c. Approval of various businesses' quotas
 - d. Gather and analyze information on domestic and offshore interest rate, exchange rate, prosperity fluctuation, political and economic environmental changes, and predict the financial trend in the future
- (E) Risk Control Office implements risk management policy and related regulations and reports to the Risk Management Committee. Risk Control Office also reports daily risk management to the General Manager and is responsible for the

following:

- a. Establish Risk Management Policy of the entire Group
- b. Develop effective method for measurement and risk management in an entity
- c. Review risk management system of business units
- d. Generate risk report through information gathering and consolidation
- e. Analyze various business risks and report to the General Manager
- f. Report the risk management situation to the Risk Management Committee according to a meeting's nature and needs
- g. Carry out duties as designated by the Risk Management Committee and control risks of business units
- (F) Auditing Office is responsible for the following:
 - a. Execute operating risk control
 - b. Include the risk management system into internal audit program and carry out the daily audit schedule.
 - c. Assess the effectiveness of internal control and verify the executed result.
- (G) Compliance segment and legal segment under the Office of General Manager are responsible for the following:
 - a. Compliance segment should make sure that the business operation and risk management system are in compliance with relevant regulations.
 - b. Legal segment is responsible for legal risk control
- (H) Finance segment is responsible for the following:
 - a. Verify the correctness of position information and reasonability of profit and loss calculation.
 - b. Control and analyze self-owned capital adequacy ratio.
 - c. Analyze the appropriateness of structures of the assets and liabilities.
- (I) Business units are responsible for the following:
 - a. Set up risk management details of various businesses according to the risk management policy and other related regulations.
 - b. Provide sufficient position information and risk control information to the Risk Control Office.

D. Risk management policy

In order to ensure the completeness of risk management system, run the balancing mechanism of risk management, and improve the division efficiency of risk management, the Group sets up "Risk Management Policy". Such policy aims to establish internal system compliance and the guiding tools for policies communication within the Group and enable every layer of the Group engaged in different tasks to identify, evaluate, monitor, and control various risks with establishment of consistent compliance rules for risks of each business so that the risks can be controlled within the limits set in advance.

Risk management processes include risk identification, risk evaluation, risk supervision and various risk control. Each kind of risk evaluations and responding strategies are described as follows:

(A) Market risk management

The Group has implemented risk management information system (Risk Manager) in relation to market risk control. All trading positions of the Group have been included in the daily risk control system for the calculation of Value at Risk (VaR). Limit exceeding indicators are mainly the nominal principal, stop-loss, sensitivity (Greeks) and VaR. The risk management report is presented on a daily basis for implementation of regular control and limit exceeding handling procedures.

(B) Credit risk management

In relation to risk control, the quantitative model of default rate adopts KMV model to calculate the default rate of issuers with credit exposure of the issuing company and the trading counterparties, and credit risk of securities disclosed in the report. The credit exposure is mitigated through regular review of credit status.

(C) Fund liquidity risk

Unit in charge of fund procurement regularly predicts future fund demand and supply, and consolidates company guarantee or endorsement and capital lending businesses to monitor the condition of fund procurement on a daily basis.

E. Hedging and risk-offsetting strategy

- (A) Policies of hedging and risk mitigating are parts of the Group's risk management policies, and the hedging position and hedged trading position are supposed to be one portfolio, of which the gain and loss and risk information are measured on a consolidated basis.
- (B) The overall position (hedging position and trading position) is included in the daily risk management system to calculate Value at Risk and other relevant information. Limit exceeding indicators mainly include nominal principal, stoploss point, price sensitivity and VaR. With the presentation of daily risk management report, routine control and limit exceeding treatment can be executed.
- (C) The continued effectiveness of hedging and risk-offsetting strategy is measured by the gain and loss of overall position (hedging position and trading position), in order to track reasonableness of the profit or loss of hedging position and the offsetting relationship with the profit or loss of trading position, and to control them within a reasonable range.

2) Credit risk

A. Source and definition of credit risk

The credit risk exposure of the Group as a result of engagement in financial transactions include issuer's credit risk, credit risk of counterparty and credit risk of underlying assets:

- (A) Credit risk of the issuer refers to the issuers of financial debt instruments held by the Group failing to repay its obligation due to the fact that the issuer breaches the contract resulting in the risk of financial loss to the Group.
- (B) Credit risk of counterparty refers to risk of financial loss to the Group arising from default by the counterparty of financial instruments on the settlement or payment obligation.
- (C) Credit risk of the underlying assets happens when the credit rating of the underlying assets linked to the financial instrument is downgraded by the rating agency or when the losses occur as a result of contract default.

The financial assets held by the Group which could result in credit risk include bank deposit, debt securities, derivatives transactions in OTC, bonds purchased/sold under resale/repurchase agreements, refundable deposit of securities lending, futures trade margins, other refundable deposits and receivables.

B. Maximum credit risk exposure and credit risk concentration

The maximum exposure to credit risk of financial assets in the consolidated balance sheet, without consideration of the collateral or other credit enhancements, is equivalent to the carrying amount. In Taiwan, the sources of credit risk of the Group are primarily resulting from cash deposited with banks or other financial institutions, debt securities issued or guaranteed by a bank, derivative instruments transaction underwritten by the Group, and all counterparties of customer margin deposits accounts being financial institutions. Credit risks of various financial assets are as

follows:

(A) Cash and cash equivalents

Cash and cash equivalents include time deposit, demand deposits and checking deposits. Correspondent institutions are mainly domestic financial institutions.

(B) Financial assets at fair value through profit and loss -current

a. Fund

The funds held by the Group are bond funds. As the positions held are not significant, credit risk is deemed low.

b. Debt securities

Debt securities are mainly positions like government bonds, convertible corporate bonds and foreign bonds and the issuers are primarily R.O.C. government, domestic and foreign legal entities. 57% of convertible corporate bond is guaranteed by banks. Details are as follows:

(a)Bonds

The bonds held by the Group are mostly government bonds (inclusive of central and local government). As a whole, the credit risk of the bonds held by the Group is low.

(b) Corporate bonds

The corporate bonds held by the Group are mainly underlying investment with good credit rating and those with rating above (S&P BB).

(c)Convertible corporate bond

The convertible corporate bonds held by the Group are mostly issued by the domestic legal entities. The Group mitigates highly risky credit exposure of the issuers by control through Taiwan Corporate Credit Risk Index (TCRI).

(d)Foreign bonds

The foreign bonds held by the Group are mainly underlying investment with good credit rating and those with rating above (S&P BB).

(C) Available-for-sale financial assets-current

The foreign bonds held by the Group are mainly underlying investment with good credit rating and those with rating above (S&P BB).

(D) Derivatives- futures trade margin

When engaging in futures trades in stock exchange market, the Group needs to deposit margin into a margin deposit account of a financial institution designated by the futures merchants as a guarantee to fulfil contractual obligation in the future. As a result, the credit risk is low.

(E) Derivatives-OTC

The Group signs International Swaps and Derivatives Association (ISDA) agreements with each counterparty when engaging in OTC derivatives as an agreement regarding such transactions for both parties. In the agreement, it provides a fundamental contractual model for OTC derivative transactions. If any party breaches the contract or terminates the transactions early, then all the open interest covered in the agreement should be settled by net amount as bound in the contract. When the ISDA agreement is signed, the Credit Support Annex (CSA) is also signed. According to the CSA, collateral will be transferred from a party to the other during transaction process to mitigate the risk of counterparty in open interest. Please refer to Note 6(11).

Types of OTC derivative transactions in which the Group is engaged include interest rate swap and swap transaction. The counterparties are all from financial service industry and mainly located in Taiwan.

(F) Bonds investment under a resale agreement

Bonds sold under a resale agreement are the bonds that the client sold to the Group at a price, interest rate, length of period as agreed by two parties and the client shall repurchase the bonds at the specified price upon maturity. The Group needs to assume credit risk from counterparties when underwriting such business, as the payment being delivered to the other party. With consideration of good collateral obtained, the net of credit risk exposure from counterparties can be effectively reduced. As all the counterparties are financial institutions with good credit rating, the credit risks from counterparties are extremely low. Please refer to Note 6(11).

(G) Margin loans receivable

Margin loans receivable are the loans provided to the client in order to process businesses of margin trading and short sale using the securities purchased through financing as collateral. The Group monitors the clients' margin ratio through information system on a daily basis. As the margin ratio of margin trading is set at 130% according to Regulations Governing the Conduct of Securities Trading Margin Purchase and Short Sale Operations by Securities Firms, the credit risk is extremely low.

(H) Guaranteed price for securities lending

Guaranteed price for securities lending is the sale price of the Group's securities sold by other securities firms through margin trading after deduction of securities transactions tax and service fee, which is deposited in other securities firms as collateral. As all the counterparties are financial institutions with good credit rating, the credit risk from counterparties is extremely low.

(I) Refundable deposits for securities lending

Refundable deposits for securities lending are the margins deposited in other securities firm as collateral when the Group's securities are sold. As all the counterparties are financial institutions with good credit, the credit risk from counterparties is extremely low.

(J) Receivables

Receivables are the credit rights arising from the securities business including settlement receivables of consignment trading, settlement receivables of operating securities sold, financing interest receivables of self-operating credit transaction, receivables of consignment trading for securities, and receivables from banks' underwriting on foreign exchange transactions and foreign fund demand. As the majority of the Group's receivables from the consignment businesses and self-operating businesses are settlement of securities from OCT or TWSE, the credit risk is extremely low. As the foreign exchange transactions are simply the receipt or payment of different currencies and the correspondent banks are of good credit rating, the credit risk is extremely low.

(K) Other current assets

Other current assets are mainly the collateral deposited in the bank for application for short-term debt limit and guarantee for application for issuance of commercial papers. As the correspondent banks are all financial institutions with good credit rating, the credit risk is extremely low.

(L) Financial assets at fair value through profit and loss – non-current In order to underwrite trust business, the Group deposits central government bonds in the Central Bank as collateral. Regardless of the bonds themselves or the financial institutions where the bonds deposited, the credit risk is extremely low.

(M) Other non-current assets

Other non-current assets mainly comprise operating guarantee deposits, settlement funds, and refundable deposits. Operating guarantee deposits are

mainly deposited in domestic banks with good credit rating. Settlement funds are deposited in securities exchange. Settlement funds are used as compensation when a party to a marketable securities transaction fails to fulfil the settlement obligation. The credit risks from the institutions where these two assets are deposited are extremely low. The refundable deposits refer to cash or other assets which are deposited externally by the Group and can be used as refundable deposits. Because deposits are placed in various financial institutions and each deposit amount is small, the credit risk is dispersed and the credit exposure of overall refundable deposit is extremely low.

C. Credit quality rating

The Group's internal credit rating can be categorized into low risk, medium risk and high risk. Definition of each rating is as follows:

- (A) Low risk: a company or the underlying position is capable of fulfilling the financial commitment to a stable extent even when facing with a significant uncertain factor or being exposed to adverse condition.
- (B) Medium risk: a company or the underlying position's capability to fulfil the financial commitment is weak. Any adverse operation, financial or economic movement shall further weaken its ability to fulfil the financial commitment.
- (C) High risk: a company or the underlying position's capability to fulfil the financial commitment is uncertain. The capability to fulfil the financial commitment shall be determined by whether the operating environment and financial position are favorable.
- (D) Impairment: a company or the underlying position fails to fulfil its obligation and the potential impairment assessed has reached the standard for recognition.

The Group uses internal and external credit rating as specified in below table. In the table below, above-mentioned two credit ratings are not directly correlated. They are mainly used to represent the similarity of credit quality. The internal credit rating is based on credit rating of Taiwan Ratings and TCRI. Default rate of certain foreign bonds is calculated using bond pricing method. The credit risk classification and management are based on historical default rate (1 year).

Internal credit rating	Credit rating of Taiwan Ratings	Credit rating of TCRI	Historical default rate (1 year)
Low risk	twAAA ~twBBB-	1~4	0.03%~1.21%
Medium risk	$twBB+ \sim twBB$	5~6	1.21%~5.10%
High risk	$twBB- \sim twC$	7~9	5.10%~26.85%
Impairment	D	D	-

The Group has classified financial assets into three categories based on the credit quality including normal asset, assets overdue but not impaired and impaired assets:

3) Liquidity risk

A. Definition and source of liquidity risk

Liquidity risk refers to possible financial losses arising from the inability to realize the asset or to obtain sufficient fund to fulfil the financial liabilities soon to be matured. Above situations may weaken the sources of cash from the Group's trading and investment activities.

B. Liquidity risk management procedure and stimulation test

In order to prevent operational crisis as a result of liquidity risk, the Group has established responding crisis process with regular monitoring over liquidity gap of fund.

(A) Procedure

In addition to the operating capital for various business and long-term investment, the Group needs to maintain revolving funds at a certain level for daily operation. The use of remaining fund shall avoid high concentration and should be based on the principle of holding sound earning assets with high liquidity and treated in compliance with policies of the Group.

The responsive unit for fund procurement adjusts the liquidity gap to ensure proper liquidity according to the daily volume and movement in the market.

(B) Stimulation test

- a. The Group reviews fund liquidity risk from a perspective of supply and demand of fund every month with simulation analysis of available fund for emergency including scenario analysis of cash, funding limit of financial institutions, margin loans and short sale, and value of disposal of position in order to compute maximum available fund and fund demand. Finally, safety stock of fund is reviewed to monitor liquidity risk.
- b. Above liquidity risk is generally reviewed monthly. However, if the available limit of increment banking credit risk in financing limit of a financial institution is lower than a certain amount (that is, the amount may be timely adjusted according to the fund liquidity in the market and the actual fund demand and supply in an entity), the safety stock will be reviewed weekly. After the early warning report for fund is submitted, the head of finance segment will call for a fund control meeting.
- c. Other than individual funding liquidity risk of an entity, stress test of minimization funding supply and maximization funding demand in the event of significant crisis is simulated, including:
 - (a) When there is a significant crisis in the market, the financing limit of the financial institutions and the value of disposal of position can be deemed the minimized ratio of fund supply which is then adjusted according to actual condition to compute the total fund supply under maximum stress.
 - (b)Except for the operating expense, the stock concept is adopted for the calculation of total fund demand under maximum stress.

- (c) The Group should conduct a review to see whether the total minimized fund supply is more than maximized total fund demand. The Group should further review how long (by month) the difference may cover the operating expenses so that the safety stock of fund (by month) under stress test can be computed.
- (d)The minimum safety stock of fund under stress test (by month) may be adjusted according to the crisis itself and only operating expense for at least 6 months under a normal stimulation can be deemed safe.
- C. Maturity analysis for the financial assets and financial liabilities held for liquidity risk management
 - (A) The Group holds cash and sound earning assets with high liquidity in order to fulfil the payment obligation and potential emergency fund demand in the market. Financial assets held for liquidity risk management are mainly cash and cash equivalents, among which, all time deposits mature within a year. Financial assets at fair value through profit and loss are mainly listed stocks, convertible bonds and debt securities. As all of them have positions in active market, the liquidity risk is deemed low.
 - (B) Maturity analysis for the financial liabilities is as follows: (Blank below)

D. Maturity analysis for lease contracts and capital expenditures

Operating lease commitment is the total minimum lease payments that the Group should make as a lessee or minimum lease income as lessor under an operating lease term which is not cancelable. The capital expenditure commitment is the contract commitment signed for acquisition of capital expenditure of construction and equipment.

The following table illustrates maturity analysis for lease contract and capital expenditure commitment of the Group:

	Operating leases			Operating leases

Over five years		5,569		

4) Market risk

A. Definition of market risk

Market risk refers refer to the risk of decrease in the Group's revenue or value of investment portfolio as a result of the changes in exchange rate, commodity price, interest rate, and stock price or other market risk factors.

The Group continually exercises risk management tools such as sensitivity analysis, Value at Risk, stress test and so on to completely and effectively measure, monitor and manage market risk.

B. Value at Risk (VaR)

Value at Risk is used to measure the possible maximum potential losses in investment portfolio as a result of movement in market risk factor in a specified period and confidence level. The Group currently uses confidence level of 95% to calculate Value at Risk of one day.

A VaR model must reasonably, completely and accurately measure the maximum potential risks of financial instruments or investment portfolio before being adopted as a risk management model by the Group. The VaR model used in risk management is continually certified and retrospectively tested to demonstrate that the model can reasonably and effectively measure the maximum potential risks of financial instruments or investment portfolios.

D. The total exchange gain (loss), including realized and unrealized, arising from significant foreign exchange variation on the monetary items held by the Group for the year ended December 31, 2017 and 2016, amounted to (\$494,310) and \$63,006, respectively.

5) <u>Information on the fair values and hierarchy of the financial instruments</u>

A. Financial instruments and non-financial instruments not measured at fair value. Except for those listed in the table below, the carrying amounts of the Group's financial instruments not measured at fair value (including cash and cash equivalents, bonds purchased under resale agreements, margin loans receivable, refinancing guaranty deposits, guaranteed proceeds receivable from refinancing, guaranteed price deposits for security borrowing, security borrowing deposits, customer margin deposit account, notes and accounts receivable, other receivables, short-term loans, commercial paper payable, bonds sold under repurchase agreements, guarantee deposit received from short sales, guaranteed price deposits received from securities borrowers, security borrowing deposits, equity of futures traders, accounts payable, collection for others, and other payables) approximate their fair values. The fair value information of financial instruments measured at fair value is provided in Note 12(5)3.

The fair value of investment property held by the Group was assessed by external valuation experts using comparison approach and income approach, or the fair value can be assessed based on the market price of the area adjacent to the location where the Group's investment property is located.

B. Valuation techniques

- (A) For financial instruments held for trading purposes which are classified as non-derivative instruments, their fair values are based on their quoted prices in an active market. If there is no quoted market price for reference, a valuation technique will be adopted to measure the fair value. Estimates and assumptions of valuation technique adopted by the Group are in agreement with the information of estimates and assumptions adopted by market users for financial instrument pricing and the said information shall be accessible to the Group. For those classified as derivative instruments, their fair values are based on their market prices if their quoted prices are available from an active market. If quoted market prices in an active market are not available, SWAP and IRS are valued at the discounted cash flow method, and options are valued at the Black-Scholes model.
- (B) When available-for-sale financial assets have quoted market prices available in an active market, the fair value is determined using the market price.

C. Fair value hierarchy of the financial instruments

(A) Definitions for the hierarchy classifications of financial instruments measured at fair value

a. Level 1

Level 1, are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date. An active market has to satisfy all the following conditions: a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The Group's investments in listed stocks, beneficiary certificates, on-the-run Taiwan central government bonds and derivative instruments with quoted market prices, are deemed as level 1.

b. Level 2

Inputs other than quoted market prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Investments of the Group such as off-the-run issue of government bonds, corporate bonds, bank debentures, convertible corporate bonds, currency swaps, interest rate swaps, options, asset swaps, and most derivatives are all classified within level 2. For the nine months ended December 31, 2017 and 2016, there was no significant transfer of financial instruments between Level 1 and Level 2.

c. Level 3

There is no financial instrument in level 3.

6) Capital management

A. Objective of capital management

- (A) The represented capital adequacy ratio basically shall not be lower than 200% in compliance with the warning standard addressed in the "Rules Governing Securities Firms".
- (B) The Group includes all risks involved in the investment position as a part of risk management, such as market risk, credit risk, liquidity risk, operating risk, legal risk, and model risk and so on. Each risk management responsive unit should identify, evaluate, monitor and control various risks in order to enable the Group to defend impact from financial market, reflect the current operating strategies and make the investment portfolio applied to business planning and development.

B. Capital management policy and procedure

In order to secure the long-term and stable development of various businesses and effectively assume risks, the Group manages capital based on the business development, related regulations and financial market environment. Major capital evaluation processes include:

- (A) Each segment should provide accurate and valid source of information to maintain calculation accuracy of capital adequacy ratio.
- (B) After the reporting at the 10th of each month, capital adequacy ratio should be computed by the end of every month. If the result is close to the legal standard, every unit will be called to attend a meeting for discussion and strategic planning to ensure that the basic objective of capital adequacy ratio is not less than 200%.
- (C) Both the risk limits and economic capital of the Group should be agreed by the Board of Directors. The Group should quarterly report details of risk control with disclosure of investment condition in order to assess whether the risk position exceeds the limit and whether the investment direction is in line with the market trend. Within the authorized risk limits, the Group is actively engaged in development of various businesses and continually increases profit, creates company value, and complies with the capital management objective.

The Group calculates and reports the capital adequacy ratio according to "Rules Governing Securities Firms". According to Jin-Guan-Zeng-Chuan Letter No. 1010016685, from July 2012, advanced calculation method applied to capital adequacy ratio for securities firms is applicable to non-financial-holdings securities firms who file the report about information on capital adequacy ratio for June 2012. As of December 31,2017 and December 31, 2016, the capital adequacy ratios were 417% and 442%, respectively as required by the regulations.

7) Assets and liabilities of trust accounts

Pursuant to Article 17 of Enforcement Rules of the Trust Enterprise Act, balance sheet, income statement, and property list of trust accounts shall be disclosed in the consolidated financial statements on a semiannual basis.

22	Total amount of customer margins required for the open positions of futures traders	1,573,458	73.60%	1,749,892	65.92%	≥15%	requirement

10) Prospective risk for futures trading

The main risk for futures merchants engaging in futures trading is credit risk, which could happen if the margin call cannot be made when it should have been made. While being consigned to conduct the futures trading, the Group pays attention to the individual margin account on a daily basis and request additional margin call or reduction in trading volume when necessary according to the condition of individual customer transactions in order to control the credit risk accordingly. The main risk faced by the Group while engaging in self-operating businesses is market price risk- that is risk of changes in market prices of futures or options contracts as a result of fluctuation in underlying investment index. Losses may occur if the market index price and underlying investment move adversely. However, the Group has set up stop-loss point to control such risk for reasons of risk management.

11) Presentation of the financial report

In line with the amendment to the "foreign exchange gains (losses)" disclosure as required by Tai-Zheng-Fu-Zi Letter No.1060500122, issued by the Taiwan Stock Exchange (TWSE) on January 10, 2017, for the year ended December 31, 2016, the effect of the above regulation on the accounts and amounts is as follows:

	For	the year ended	For t	the year ended
	Dece	ember 31, 2017	mber 31, 2016	
Statement of Comprehensive Income	After	Reclassification	Before	Reclassification
Others operating (losses) income				
Net currency exchange loss	\$	65,073	\$	-
Others gains and losses	(2,067)		63,006

13. OTHER DISCLOSURE ITEMS

1) Information about significant transactions

- A. Lending to others: Excluding security margin trading and conditional bond trading business, there is no lending of funds to either the shareholders or other parties.
- B. Endorsements and guarantees for others: None.
- C. Acquisitions of real estate exceeding \$300,000 or 20 percent of contributed capital : None.
- D. Disposals of real estate exceeding \$300,000 or 20 percent of contributed capital: None.
- E. Purchases or sales transactions discount on brokers' charges with related parties in excess of \$5.000: None.
- F. Receivables from related parties exceeding \$100,000 or 20 percent of contributed capital: None.

G. Significant transactions between parent company and subsidiaries

				Details	s of transactions

0	President Securities Corp.	President Capital Management Corp.	1	Other non-operating revenues	3,556	Note 4	0.05%

- Note 1: The numbers in the No. column are represented as follows:
 - 1. The number zero is for parent company.
 - 2. According to the sequential order, subsidiaries are numbered from 1.
- Note 2: There are three kinds of transactions between related parties and numbered from 1 to 3 were shown as follows (If transactions between parent company and subsidiaries or between subsidiaries refer to the same transaction, it is not required to disclose twice. For example, if the parent company has already disclosed its transaction with a subsidiary, then the subsidiary is not required to disclose the transaction; for transactions between two subsidiaries, if one of the subsidiaries has disclosed the transaction, then the other is not required to disclose the transaction.)
 - 1. Parent company to subsidiaries.
 - 2. Subsidiaries to parent company.
 - 3. Subsidiaries to subsidiaries.
- Note 3: The calculation basis of the trading amount accounting for the total consolidated net revenues or assets is that the account ending balance is divided by the total consolidated assets if it is attributed to the balance sheet accounts, and the accumulated trading amount of the interim period is divided by the total consolidated net revenues if it is attributed to the profit or loss accounts.
- Note 4: All the prices of the service revenues and consulting service provided between related parties were traded by contracts.
- Note 5: Based on materiality, only the amounts of the transactions that were above \$1 million would be shown in the table.
- 2) Related information of investee companies

14. SEGMENTS INFORMATION

1) General information

Financial information by the Group's segments is disclosed in accordance with IFRS 8. Management has determined the reportable operating segments based on the reports reviewed by the Chief Operating Decision-Maker (CODM) that are used to make strategic decisions. The Group's operating segments are classified into Brokerage, Proprietary Trading, Fixed Income and Reinvestment according to the sources of income. The remaining operating results which have not reached the threshold requirements are consolidated in 'other operating segments'. Sources of income from products and services rendered by each segment are as follows:

- A. Brokerage segment: consigned trading of the listed securities, margin trading and short sale, assistance in futures trading and other instruments trading as approved by the regulations.
- B. Proprietary Trading segment: using the self-owned equity to conduct securities trading such as stocks and bonds trading, and futures and options hedging in Stock Exchange and OTC.
- C. Fixed Income segment: bonds segment is engaged in central government bonds, ordinary corporate bonds, convertible corporate bonds, and bills and bonds under repurchase or resale agreements transactions in OTC.
- D. Reinvestment segment: companies reinvested by the consolidated entities.
- E. Other operating segments include Capital Market segment, Quantitative Trading segment, Financial Product segment, and Shareholder Services segment.

2) Segments information

The accounting policies applied to the Group's operating segments and summary of accounting policies disclosed in the notes to the financial statements are consistent and identical. The operating gains and losses are measured by the amount before tax and used as basis for performance appraisal. Income and expense attributable to each operating segment are attributed to the segmental gains and losses. Non-attributable indirect expenses and expenses from logistic support segment are amortised to each operating segment based on reasonable calculation standards and the expense nature. Those that cannot be reasonably amortised are listed under "Others".

3) Profit or loss of segments information

					Yea	r eı	nded December 31, 2	2017	7			
	Brokerage	Pı	roprietary Trading		Fixed Income		Reinvestment		Other operating			
	 segment		segment		segment		segment		segments		Others	 Total
Segment revenues	\$ 2,296,187	\$	1,789,971	\$	1,093,725	\$	1,013,369	\$	1,128,098	<u>(</u> \$	51,284)	\$ 7,270,066
Segment profit or loss	\$ 368,235	\$	1,348,730	\$	682,982	\$	280,842	\$	275,537	(\$	112,353)	\$ 2,843,973
			Year ended December 3						5			
	Brokerage	Pı	roprietary Trading		Fixed Income		Reinvestment		Other operating			
	segment		segment		segment		segment		segments		Others	 Total
Segment revenues	\$ 1,672,670	\$	96,166	\$	973,138	\$	1,057,066	\$	794,382	(\$	30,806)	\$ 4,562,616
Segment profit or loss	\$ 34,385	(\$	219,321)	\$	717,344	\$	239,925	\$	217,355	(\$	52,177)	\$ 937,511

Note 1: As operating income (loss) in total is consistent with consolidated statement of comprehensive income, there is no need for adjustment.

4) <u>Informations on products and services</u>

The Group's reportable segments are based on different products and services with disclosure of general information about types of products and services of the reportable segments' income sources. There is no requirement for additional disclosure of income from products and services.

5) <u>Informations on regions</u>

There was no disclosure since the revenues from foreign customers were not significant.

6) Informations on major customers

There was no disclosure because no single customer accounted for 10% or more of the Group's operating revenues for the current period.

Note 2: The Company measures the performance of reportable operating segment based on specific performance indicators instead of assets and liabilities. The performance of reportable operating segment is regularly reviewed and assessed by the CODM as a reference for making resources allocation decision.
