PRESIDENT SECURITIES CORPORATION PARENT COMPANY ONLY FINANCIAL STATEMENTS AND INDEPENDENT AUDITORS' REPORT DECEMBER 31, 2022 AND 2021

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

PWCR22003960

To the Board of Directors and Shareholders of President Securities Corporation

Opinion

We have audited the accompanying parent company only balance sheets of President Securities Corporation (the "Company") as at December 31, 2022 and 2021, and the related parent company only statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the parent company only financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying parent company only financial statements present fairly, in all material respects, the parent company only financial position of the Company as at December 31, 2022 and 2021, and its parent company only financial performance and its parent company only cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Firms and Regulations Governing the Preparation of Financial Reports by Futures Commission Merchants.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the parent company only financial statements* section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Company's 2022 parent company only financial statements. These matters were addressed in the context of our audit of the parent company only financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

The key audit matters of the Company's 2022 parent company only financial statements are stated as follows:

Fair value measurement of unlisted stocks without active market

Description

Please refer to Note 4(7) for the accounting policies on unlisted stocks without active market (shown as "financial assets at fair value through other comprehensive income") and Note 5 for details of significant judgements, estimates and assumption uncertainty. As at December 31, 2022, the unlisted stocks without active market held by the Company totaled 294,855 thousand New Taiwan Dollars and were shown as "financial assets at fair value through other comprehensive income" (Level 3 fair value).

Due to the lack of an active market, the fair value of the unlisted stocks held by the Company was determined using valuation method. Management measured its fair value by using comparable listed companies in market approach. The main assumption of market approach is calculated based on the latest related parameters of comparable listed companies in similar industries and considering discounts on market liquidity or risk particularity.

Above-mentioned estimation of fair value involves various assumptions and material unobservable inputs, which has high uncertainty and relies on the subjective judgment of management. Any changes in judgements and estimates may affect the ultimate result of accounting estimates and have an impact on the financial statements of the Company. Thus, we have included the fair value measurement of unlisted stocks without active market as a key audit matter in our audit.

How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

- 1.Obtained an understanding and assessed policy documents, internal control system, fair value measurement models and approval processes that are related to fair value measurement of unlisted stocks;
- Ascertained whether the measurement methods used by the management is commonly used by the industry;
- 3. Assessed the reasonableness of parameter of similar companies used by management;
- 4.Examined inputs and calculation formulas used in valuation methods and agreed such data to supporting documents.

Impairment indication assessment of investments accounted for under the equity method

Description

Please refer to Note 4(13) for accounting policies on investments accounted for under the equity method and its impairment, Note 5(2) for the uncertainty of accounting estimates and assumptions applied on asset impairment, and Note 6(11) for details of investments accounted for under the equity method.

The Company held 42.46% of equity of Uni-President Asset Management Corp. which was accounted for under the equity method, and the excess of the carrying amount over the share of the investee company's net assets is mainly goodwill. As of December 31, 2022, the amount was 747,473 thousand New Taiwan Dollars. Impairment assessment is based on the expected future cash flow of the investee, discounted at an appropriate discount rate, to measure the recoverable amount of the cash generating unit.

The recoverable amount of the investee is based on its expected future cash flows which involve multiple estimates and assumptions on discount rate and financial forecast. These are subjective judgements, have a high degree of uncertainties, and are material to the recoverable amount. Thus, we consider the impairment assessment of investments accounted for under the equity method as one of the matters of most significance to our audit.

How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

- 1.Obtained the impairment assessment report prepared by an external valuation expert who was commissioned by the management and reviewed the achievement of the past financial forecast to assess its execution:
- 2.Assessed the reasonableness of expected future cash flows, discount rate and other significant assumptions applied in the cash flow model; and
- 3.Inspected valuation model parameters, formula setting and the accuracy of calculation.

Responsibilities of management and those charged with governance for the parent company only financial statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, Regulations Governing the Preparation of Financial Reports by Futures Commission Merchants, and for such internal control as management determines is necessary to enable the preparation of parent company only financial statement that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the Company's financial reporting process.

Auditors' responsibilities for the audit of the parent company only financial statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgement and professional skepticism throughout the audit. We also:

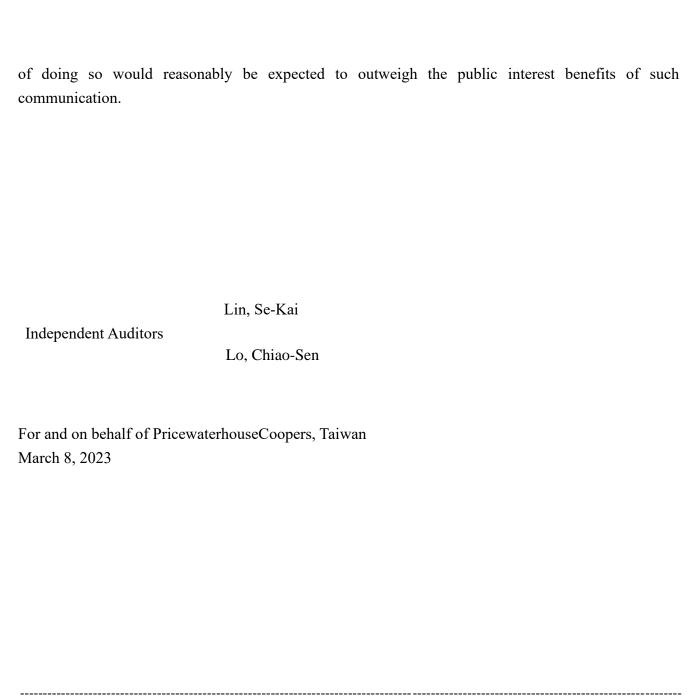

1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the parent company only audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences

The accompanying parent company only financial statements are not intended to present the financial position and financial performance and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying parent company only financial statements and independent auditors' report are not intended for use by those who are not informed about the Standards on Auditing of the Republic of China, and their applications in practice.

As the financial statements are the responsibility of the management, PricewaterhouseCoopers cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

PRESIDENT SECURITIES CORPORATION NOTES TO THE PARENT COMPANY ONLY FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANIZATION

- 1) President Securities Corporation (the "Company") was incorporated as a company limited by shares under the provisions of the Company Law of the Republic of China (R.O.C.) on December 17, 1988 and was renamed as President Securities Corporation on March 4, 1989. The Company started commercial operations on April 3, 1989. As of December 31, 2022, the Company had 31 operating branches (including the Head Office) and established Offshore Securities Unit in July 2014.
- 2) The Company is primarily engaged in underwriting of securities, dealing or brokerage business of securities at the securities exchange markets and business premises, registration and transfer agency service for securities, margin loans and short sales business of securities, securities lending and borrowing business, futures introducing brokerage services, futures dealing, issuance of call (put) warrants, new financial instrument transactions, wealth management business, and trust business.
- 3) The Company's shares are listed on the Taiwan Stock Exchange.
- 4) The number of employees of the Company were 1,463 and 1,447, as of December 31, 2022 and 2021, respectively.

2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION

These parent company only financial statements were authorized for issuance by the Board of Directors on March 8, 2023.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") that came into effect as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments that came into effect as endorsed by FSC and became effective from 2022 are as follows:

| | Effective Date by |
|----------------------------------------------------------------|--------------------------|
| | International Accounting |
| New Standards, Interpretations and Amendments | Standards Board |
| Amendments to IFRS 3, 'Reference to the conceptual framework' | January 1, 2022 |
| Amendments to IAS 16, 'Property, plant and equipment: proceeds | January 1, 2022 |
| before intended use' | |
| Amendments to IAS 37, 'Onerous contracts-cost of fulfilling a | January 1, 2022 |
| contract' | |
| Annual improvements to IFRS Standards 2018–2020 | January 1, 2022 |

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

2) Effect of new issuances of or amendments to IFRSs that came into effect as endorsed by the FSC but not yet adopted by the Company

New standards, interpretations and amendments that came into effect as endorsed by FSC effective from 2023 are as follows:

| | Effective Date by |
|-----------------------------------------------------------|--------------------------|
| | International Accounting |
| New Standards, Interpretations and Amendments | Standards Board |
| Amendments to IAS 1, 'Disclosure of accounting policies' | January 1, 2023 |
| Amendments to IAS 8, 'Definition of accounting estimates' | January 1, 2023 |
| Amendments to IAS 12, 'Deferred tax related to assets and | January 1, 2023 |
| liabilities arising from a single transaction' | |

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs endorsed by the FSC are as follows:

| | Effective Date by |
|---------------------------------------------------------------------------------------------|--------------------------|
| | International Accounting |
| New Standards, Interpretations and Amendments | Standards Board |
| Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets | To be determined by |
| between an investor and its associate or joint venture' | International Accounting |
| | Standards Board |
| Amendments to IFRS 16, 'Lease liability in a sale and leaseback' | January 1, 2024 |
| IFRS 17, 'Insurance contracts' | January 1, 2023 |
| Amendments to IFRS 17, 'Insurance contracts' | January 1, 2023 |
| Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information' | January 1, 2023 |
| Amendments to IAS 1, 'Classification of liabilities as current or non-current' | January 1, 2024 |
| Amendments to IAS 1, 'Non-current liabilities with covenants' | January 1, 2024 |

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of the Company's financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

1) Compliance statement

The financial statements of the Company have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Firms" and "Regulations Governing the Preparation of Financial Reports by Futures Commission Merchants".

2) Basis of preparation

- A. Except for the following items, these financial statements have been prepared under the historical cost convention:
 - (A) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (B) Financial assets at fair value through other comprehensive income.
 - (C) Defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligations.
- B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretation that came into effect as endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 5.

3) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
 - (A) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
 - (B) Assets held mainly for trading purposes;
 - (C) Assets that are expected to be realized within twelve months from the balance sheet date;
 - (D) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
 - (A) Liabilities that are expected to be paid off within the normal operating cycle;
 - (B) Liabilities arising mainly from trading activities;
 - (C) Liabilities that are to be paid off within twelve months from the balance sheet date;
 - (D) Liabilities for which the repayment date cannot be extended unconditionally to more

than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

4) Translation of foreign currency transactions

A. Foreign currency translation and presentation

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (the "functional currency"). Functional currency and bookkeeping currency of the Company is New Taiwan Dollars.

B. Foreign currency transactions and balances

Foreign currency transactions denominated in a foreign currency or required to settle in a foreign currency are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Assets and liabilities denominated in foreign currency are translated by the closing exchange rate at balance sheet date. The closing exchange rate is determined by the market exchange rate. Non-monetary assets and liabilities denominated in foreign currencies which are carried at historical cost are re-translated at the exchange rates prevailing at the original transaction date. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are retranslated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income.

C. Translation of foreign operations

The operating results and financial position of all the company entities, associates and joint arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (A) Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
- (B) Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
- (C) All resulting exchange differences are recognized in other comprehensive income.

5) Cash and cash equivalents

- A. In the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with banks, and other short-term highly liquid investments.
- B. Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of

changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

6) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortized cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value and recognizes the transaction costs in profit or loss. The Company subsequently measures the financial assets at fair value and recognizes the gain or loss in profit or loss.
- D. The Company recognizes the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

7) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Company has made an irrevocable election at initial recognition to recognize changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:
 - (A)The objective of the Company's business model is achieved both by collecting contractual cash flows and selling financial assets; and
 - (B) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. The Company subsequently measures the financial assets at fair value:
 - (A)The changes in fair value of equity investments that were recognized in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognized as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.
 - (B)Except for the recognition of impairment loss, interest income and gain or loss on foreign exchange which are recognized in profit or loss, the changes in fair value of debt instruments are taken through other comprehensive income. When the financial asset is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss.

8) Notes and accounts receivable, other receivables and margin loans receivable

- A. Accounts and notes receivable and margin loans receivables entitle the Company a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.
- Bonds sold under repurchase agreements and bonds purchased under resale agreements

 Bond transactions under repurchase or resale agreements are stated at the amount of actual payment or receipt. When transactions of bonds with a condition of resale agreements occur, the actual payment or receipt shall be recognized in 'bonds purchased under resale agreements' under current assets. When transactions of bonds with a condition of repurchase agreements occur, the actual payment or receipt shall be recognized in 'bonds sold under repurchase agreements' under current liabilities. Any difference between the actual payment/receipt and predetermined redemption (repurchase) price is recognized in interest income or interest expense.

10) Impairment of financial assets

For debt instruments measured at fair value through other comprehensive income, at each reporting date, the Company recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Company recognizes the impairment provision for lifetime ECLs.

11) Derecognition of financial instruments

A. Derecognition of financial assets

The Company derecognizes a financial asset when one of the following conditions is met:

- (A) The contractual rights to receive cash flows from the financial asset expire.
- (B) The contractual rights to receive cash flows from the financial asset have been transferred and the Company has transferred substantially all risks and rewards of ownership of the financial asset.
- (C) The contractual rights to receive cash flows of the financial asset have been transferred; however, the Company has not retained control of the financial asset.

B. Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability specified in the contract is discharged or cancelled or expires.

12) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

13) Investments accounted for under the equity method/Subsidiaries and associates

- A. Subsidiaries are all entities (including structured entities) controlled by the Company. The Company controls an entity when the Company is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Investments in subsidiaries are accounted for using the equity method and are initially recognized at cost.
- B. Unrealized gains on transactions between the Company and its subsidiaries are eliminated to the extent of the Company's interest in the subsidiaries. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Company.
- C. The Company's share of its subsidiaries' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Company's share of losses in a subsidiary equals or exceeds its interest in the subsidiary, including any other unsecured receivables, the Company does not recognize further losses.
- D. Associates are all entities over which the Company has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognized at cost.
- E. The Company's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Company's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Company does not recognize further losses, unless it has incurred statutory/constructive obligations or made payments on behalf of the associate.
- F. When changes in an associate's equity that are not recognized in profit or loss or other comprehensive income of the associate and such changes not affecting the Company's ownership percentage of the associate, the Company recognizes its share of change in

- equity of the associate in 'capital surplus' in proportion to its ownership.
- G. Unrealized gains on transactions between the Company and its associates are eliminated to the extent of the Company's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Company.
- H. According to "Regulations Governing the Preparation of Financial Reports by Securities Firms", the profit or loss for the period and other comprehensive income presented in parent company only financial reports shall be the same as the allocations of profit or loss for the period and of other comprehensive income attributable to owners of the parent presented in the financial reports prepared on a consolidated basis, and the owners' equity presented in the parent company only financial reports shall be the same as the equity attributable to owners of the parent presented in the financial reports prepared on a consolidated basis.
- I. When there are objective evidences of impairment, at balance sheet date, the Company considers the whole investment carrying amount as single asset, and compares its recoverable amount (value in use or fair value less costs of disposal) with the carrying amount, to test its impairment. Value in use is determined by the present value of the Company's share of the expected future cash flow from the associates. If the recoverable amount is less than its carrying amount, an impairment loss should be recognized. The loss will not be allocated to any of the components (including goodwill), which comprise the carrying amount of the investment. An impairment loss recognized in prior periods shall be reversed if circumstances of impairment no longer exist or have decreased.

14) Property and equipment

- A. Property and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

- C. Land is not depreciated. Other property and equipment are subsequently measured using the cost model and depreciated using the straight-line method to allocate their cost over their estimated useful lives.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance sheet date. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property and equipment are as follows:

| | <u>Useful lives</u> |
|------------------------|---------------------|
| Buildings | 5~50 years |
| Equipment | 3∼10 years |
| Leasehold improvements | 5 years |

E. When an asset is sold or retired, the cost and accumulated depreciation are removed from the respective accounts and the resulting gain or loss is included in current operations.

15) Leasing arrangements (lessee) — right-of-use assets/ lease liabilities

- A. Leases are recognized as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low value assets, lease payments are recognized as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are mainly comprised of fixed payments.
 - The Group subsequently measures the lease liability at amortized cost using the interest method and recognizes interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognized as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.
- C. At the commencement date, the right-of-use asset is stated at cost comprising mainly the amount of the initial measurement of lease liability.
 - The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognized as an adjustment to the right-of-use asset.

16) Investment property

- A. Investment property of the Company is the property held either to earn long-term rental income or for capital appreciation or for both.
- B. Part of the property may be held by the Company for self-use purpose and the remaining are used to generate rental income or capital appreciation. If the property held by the Company can be sold individually, then the accounting treatment should be made respectively. If each part of the property cannot be sold individually and the self-use proportion is not material, then the property is deemed as investment property in its entirety.
- C. When the future economic benefit related to the investment property is highly likely to flow into the Company and the costs can be reliably measured, the investment property shall be recognized as assets. When the future economic benefit generated from subsequent costs is highly likely to flow into the entity and the costs can be reliably measured, the subsequent expenses of the assets shall be capitalized. All maintenance costs are recognized in profit or loss as incurred.
- D. Investment property is subsequently measured using the cost model. Depreciated cost is used to calculate amortization expense after initial measurement. The depreciation method, remaining useful life and residual value should apply the same rules as applicable for property and equipment.

17) Intangible assets

- A. The cost of computer software is amortized using the straight-line method over the useful lives based on acquisition cost, with an amortization period of 4 years.
- B. In accordance with IFRS 3 'Business combinations' as endorsed by FSC, goodwill arises when the acquisition cost exceeds the fair value of identifiable assets and liabilities of the consolidated subsidiary on the consolidation date. The goodwill arising from the consolidated subsidiary is included in the intangible asset. Goodwill is tested annually for impairment and any impairment loss will be recognized when impairment occurs. Impairment losses on goodwill are not reversed.

18) Impairment of non-financial assets

A. The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

- B. The recoverable amounts of goodwill, intangible assets with an indefinite useful life and intangible assets that have not yet been available for use are evaluated periodically. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. Impairment loss of goodwill previously recognized in profit or loss shall not be reversed in the following years.
- C. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units, or groups of cash-generating units, that is expected to benefit from the synergies of the business combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

19) Financial liabilities at fair value through profit or loss

- A. Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorized as financial liabilities held for trading unless they are designated as hedges.
- B. At initial recognition, the Group measures the financial liabilities at fair value. All related transaction costs are recognized in profit or loss. The Group subsequently measures these financial liabilities at fair value with any gain or loss recognized in profit or loss.

20) Contingent liabilities

Contingent liability is a possible obligation that arises from past event, whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Or it could be a present obligation as a result of past event but the payment is not probable or the amount cannot be measured reliably. The Company did not recognize any contingent liabilities but made appropriate disclosure in compliance with relevant regulations.

21) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expenses in that period when the employees render service.

B. Termination benefits

Termination benefits are employee benefits provided in exchange for the termination of employment as a result from either the Company's decision to terminate an employee's employment before the normal retirement date, or an employee's decision to accept an offer of redundancy benefits in exchange for the termination of employee. The Company recognized expense as it can no longer withdraw an offer of termination benefit or it recognizes relating restructuring costs, whichever is earlier. Benefits that

are expected to be due more than 12 months after balance sheet date shall be discounted to their present value.

C. Pensions

(A) Defined contribution plans

Effective July 1, 2005, the Company established the defined contribution plan for employees of R.O.C. nationality. The employees have the option to participate in the New Plan. Under the New Plan, the Company contributes monthly an amount equivalent to 6% of employees' salaries to the employees' personal pension accounts with the "Bureau of Labor Insurance". Benefits accrued under the New Plan are portable upon termination of employment. Net defined benefit asset can only be recognized when there is a cash refund or elimination in the future accrued pension liabilities.

(B) Defined benefit plans

- a. In a defined benefit plan, the pension paid is determined based on the amount that an employee shall receive upon retirement, which could vary with age, work seniority and salary compensations. The Company recognizes the accrued pension obligations in the balance sheet based on the net amount of actuarial present value of defined benefit obligation less the fair value of fund, which is adjusted with the net of past service cost recognized as liabilities. Defined benefit obligation is assessed annually using projected unit credit method by the actuary. The present value of the defined benefit obligation is determined using the market yield of government bonds of a currency and term consistent with the currency and term of the employment benefit obligations.
- b. Remeasurement arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.

D. Employees' remuneration and directors' remuneration

Employees' and directors' remuneration are recognized as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates.

22) Revenues and expenses

The Company's revenues and expenses mainly include:

- A. Gains (losses) on sale of securities, securities brokerage fees, and commissions on brokerage and trading are recognized on the transaction date.
- B. Underwriting fees and related service charges: application fees are recognized upon collection; underwriting fees and service charges are recognized when the contract is

completed.

- C. Gains (losses) on futures contracts: The margin of futures transaction is recognized as cost. Costs and expenses are recognized as incurred.
- D. Operating expenses: operating expenses refer to required expenses invested in the Company's operations, which primarily include employee benefit expense, depreciation and amortization, and other business and administrative expenses.

23) Income tax

A. Current income tax

Income tax payable (refundable) is calculated on the basis of the tax laws enacted in the countries where a company operates and generates taxable income. Except for the transactions or other matters directly recognized in other comprehensive income or equity, in which cases the related income taxes in the period are recognized in other comprehensive income or directly derecognized from equity, all the others should be recognized as income or expense for the period.

B. Deferred income tax

Deferred income tax assets and liabilities are measured based on the tax rate of the anticipated period that the future assets realization or the liabilities settlement requires, which is based on the effective or existing tax rate at the balance sheet date. The carrying amounts and temporary differences of assets and liabilities included in the balance sheet are calculated using the liability method and recognized as deferred income tax. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit (loss). Deferred income tax assets are recognized only to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilized. If the future taxable income is probable to provide unused loss carryforwards or deferred income tax credit which can be realized in the future, the proportion of realization is deemed as deferred income tax asset.

- C. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions for income tax liabilities where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- D. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts

and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.

24) Share capital

- A. Incremental costs directly attributable to the issuance of new shares are shown as a deduction, net of tax, from equity. Dividends from common stocks are recognized as equity in the financial period in which they are approved by the Company's shareholders. If the date of dividends declared is later than the balance sheet date, common stocks are disclosed in the subsequent events.
- B. Where the Company repurchases the Company's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

25) Earnings per share

- A. Earnings per share is calculated by dividing net income by the weighted average number of shares outstanding during the year after taking into consideration the retroactive effect of stock dividends and capital reserve capitalized.
- B. When the Company calculates earnings per share, basic earnings per share and diluted earnings per share for all potential ordinary shares shall all be disclosed in accordance with IAS 33 "Earnings per share".

5. <u>CRITICAL ACCOUNTING JUDGEMENTS</u>, <u>ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY</u>

1) As the financial statements of the Company may be affected by the adoption of accounting policy, accounting estimate and assumption, the Company's management shall properly exercise its professional judgement, estimates, and assumptions on the information of the key risks that is obtained from other resources and could affect the carrying amounts of financial assets and liabilities in the next fiscal year while adopting critical accounting policies as stated in Note 4. Estimates and assumptions of the Company are the best estimates made in compliance with IFRSs as endorsed by the FSC. Estimates and assumptions are made based on past experience and other factors (including the influence of COVID 19) deemed relevant; however, the actual results may differ from the estimates. The Company evaluates the estimates and assumptions on an ongoing basis and recognizes

the adjustment of the estimates only in the period which is affected by the adjustment. If the adjustment simultaneously affects both the current and future periods, it should be recognized in both periods.

2) Relevant information on key assumptions to be made in the future, key sources of assumption uncertainty made at balance sheet date, and assumptions and estimates that may cause key risks that could affect the carrying amounts of financial assets and liabilities are as follows:

A. Fair value of financial instruments

Financial instruments with no active market or quoted price use valuation technique to determine the fair value. Under such condition, fair value is assessed through the observable information or models of similar financial instruments. If there is no observable input available in a market, the fair value of financial instrument is assessed through appropriate assumptions. When valuation models are adopted to determine the fair value, all the models should be calibrated to ensure that the output can actually reflect actual information and market price. Models should try to take only observable information as much as possible.

B. Expected credit losses

For financial assets, the measurement of expected credit losses uses complex models and multiple assumptions. These models and assumptions take into account future macro-economic conditions and credit behaviors of borrowers (e.g. probability of customer default and loss). Please refer to Note 12(2) for detailed information on parameters, assumptions, and estimation methods used in measuring expected credit losses and disclosure of the sensitivity of credit loss to the aforementioned factors.

The measurement of expected credit losses according to applicable accounting rules involves significant judgement in several areas, for example:

- (A)The criteria used to judge whether there is significant increase in credit risk.
- (B)The selection of appropriate models and assumptions for measuring expected credit losses.

For judgements and estimations of the above expected credit losses, please refer to Note 12(2).

C. Impairment assessment on investment accounted for under the equity method When there are impairment indicators that show the investments accounted for under the equity method are impaired and the carrying amount can no longer be recovered, the Company will assess the impairment of the investment. The Company assesses its share of the recoverable amount which is based on the discounted value of expected cash flow, and assess the reasonableness of relevant assumptions, including revenue growth rate, operating profit margin, net profit margin, financial forecast, and discount rate.

D. Impairment assessment of goodwill

The periodic impairment assessment of goodwill includes allocation of assets, liabilities, and goodwill to brokerage segment, and determines the recoverable amount based on brokerage segment's present value of expected future cash flow. The periodic assessment also analyzes reasonableness of relevant assumptions, including expected future trading volumes, market share, segment's operating profit margin, and discount rates.

6. <u>DETAILS OF SIGNIFICANT ACCOUNTS</u>

1) Cash and cash equivalents

| | Dece | mber 31, 2022 | Dece | mber 31, 2021 |

| Total | \$ | 1,870,428 | \$ | 7,992,320 |
| | | | | |

9) Transfer of financial assets

A. During the Company's activities, the transferred financial assets that do not meet derecognition conditions are mainly debt instruments with purchase agreements or debt instruments lent out in accordance with securities borrowing and lending agreement. The cash flow of the contract has been transferred and related liabilities of transferred

financial assets that will be repurchased at a fixed price in the future have been reflected. The Company may not use, sell or pledge the transferred financial assets during the valid period of the transaction. The financial assets were not derecognized as the Company is still exposed to interest rate risk and credit risk.

B. Financial assets that do not meet the derecognition conditions and related financial liabilities are analysed below:

| December 31, 2022 | | | | | | | | | |

| Repurchase agreement | \$ | 10,016,623 | \$ | 9,643,040 | | | | | |

10) Offsetting financial assets and financial liabilities

A. The Company has transactions that are or are similar to net settled master netting arrangements but do not meet the offsetting criteria, i.e. derivative financial instruments, resale and repurchase agreements. If one party breaches the contract, the counterparty can choose to use net settlement for the above transactions.

(Blank below)

B. The offsetting of financial assets and financial liabilities are set as follows:

(1) Financial assets

| | | | | December 31 | 2022 | | | | | | | |

| | \$ | 8,085,345 | \$ | 7,518,999 |

- A. The Company's share of its associates' profits or losses recognized in long-term equity investment accounted for under the equity method for the years ended December 31, 2022 and 2021 were \$32,394 and \$213,779, respectively.
- B. Subsidiary President Securities (HK) Ltd., President Wealth Management (HK) Ltd. and President Securities (Nominee) Ltd. were approved by the Board of Directors in March 2022 to deal with the dissolution and liquidation matters.
- C. The Company holds 42.46% of the equity of Uni-President Asset Management Corp., making it the single largest shareholder of the company, while the other equity is mainly held by the other 17 shareholders. Half of the voting rights of the shareholders attending the shareholders' meeting exceeds the voting rights of the Company, and the Company does not take an active role in the management of the company. This shows that the Company has no actual ability to direct relevant activities. The Company has no control over Uni-President Asset Management Corp., but has significant influence over it.
- D. Details of information of subsidiaries are provided in Note 4(3) of consolidated financial statements.
- E. The financial information of the Company's principal associates is summarized as follows:
 - (a) The basic information of the associate that are material to the Company is as follows:

| Company name | Princial place of businesss | Shareholo | ling ratio | Nature of relationship | Methods of measurement |

- A. No interest was capitalized for property and equipment for the years ended December 31, 2022 and 2021.
- B. The information on property and equipment pledged or restricted as of December 31, 2022 and 2021 is described in Note 8.

13) <u>Leasing arrangements — lessee</u>

A. The Company leases various assets including buildings, machinery and equipment, business vehicles and multifunction printers. Rental contracts are typically made for periods of 1 to 10 years. Lease terms are negotiated on an individual basis and contain a wide range of different

terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.

B. The carrying amount of right-of-use assets and the depreciation charge are as follows:

| | Decer | mber 31, 2022 | December 31, 2021 | | |
|----------------------------------------------|-------|----------------|-------------------|----------------|--|
| | Carry | ing Amount | Carry | ing Amount | |
| Buildings | \$ | 135,919 | \$ | 168,610 | |
| Transportation equipment (Business vehicles) | | 13,098 | | 15,976 | |
| Office equipment (Photocopiers) | | 6,078 | | 7,374 | |
| Total | \$ | 155,095 | \$ | 191,960 | |
| | Y | ear ended | Y | ear ended | |
| | Decer | mber 31, 2022 | Decen | nber 31, 2021 | |
| | Depre | ciation charge | Depre | ciation charge | |
| Buildings | \$ | 63,056 | \$ | 63,091 | |
| Transportation equipment (Business vehicles) | | 5,495 | | 5,557 | |
| Office equipment (Photocopiers) | | 2,165 | | 2,100 | |
| Total | \$ | 70,716 | \$ | 70,748 | |

- C. For the years ended December 31, 2022 and 2021, the additions to right-of-use assets amounted to \$44,048 and \$91,685, respectively.
- D. The information on income and expense accounts relating to lease contracts is as follows:

| | Yea | ar ended | Yea | ar ended |
|---------------------------------------|--------|--------------|--------|--------------|
| Items affecting profit or loss | Decemb | per 31, 2022 | Decemb | per 31, 2021 |
| Interest expense on lease liabilities | \$ | 1,131 | \$ | 1,186 |
| Expense on short-term lease contracts | | 4,241 | | 1,651 |
| Expense on variable lease payment | | 100 | | 3,485 |

- E. For the years ended December 31, 2022 and 2021, the Company's total cash outflow for leases amounted to \$73,456 and \$70,881, respectively.
- F. The Group has applied the practical expedient to "Covid-19-related rent concession", and recognized the other gains or losses from changes in lease payments arising from the rent concessions amounting to \$156 and \$104, respectively, by decreasing rent expense for the years ended December 31, 2022 and 2021.

14) <u>Leasing arrangements – lessor</u>

- A. The Company leases various assets including office and parking space. Rental contracts are typically made for periods of 1 to 5 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.
- B. For the years ended December 31, 2022 and 2021, the Company recognized rent income in the amount of \$24,436 and \$24,512, respectively, based on the operating lease agreement, which does not include variable lease payments.

C. The maturity analysis of the lease payments under the operating leases is as follows:

| | Decem | ber 31, 2022 | Decen | nber 31, 2021 |
|-------|-------|--------------|-------|---------------|
| 2022 | \$ | 24,436 | \$ | 23,655 |
| 2023 | | 24,585 | | 29,695 |
| 2024 | | 10,547 | | 6,077 |
| Total | \$ | 59,568 | \$ | 59,427 |

- A. No interest was capitalized for intangible assets for the years ended December 31, 2022 and 2021.
- B. Goodwill and customer relationships were acquired through acceptance of transfer of the securities brokerage business of Standard Chartered (Taiwan) Bank's retail banking business and were all allocated to the Company's brokerage segment.
- C. The recoverable amount of goodwill was periodically determined based on its value in use. Calculations of value in use after-tax cash flow projections are based on financial budgets approved by the management covering a five-year period. Cash flows beyond the five-year period are extrapolated using the estimated growth rates stated below.

The recoverable amount calculated based on the value in use exceeded the carrying amount, thus the goodwill was not impaired. The key assumptions used for calculation of value in use are as follows:

| Brokerage | e Segment |
|-------------------|-------------------|
| Year ended | Year ended |
| December 31, 2022 | December 31, 2021 |
| 0.00% | 0.00% |
| 13.26% | 12.03% |

Management determined the growth rate based on past performance and its expectations of market development. The discount rates were based on the weighted average financing cost rates determined by the Company's capital asset pricing model. The discount rates also reflect specific risks related to relevant operating segments.

| Total | \$ | 9,156,084 | \$ 8,171,735 |

Among the warrants issued by the Company, except for contract-based warrants which are European-style warrants, all other warrants are American-style warrants. Warrants are stated as liabilities for issuance of warrants at issuance price prior to expiration. Upon repurchase of warrants after issuance, the repurchased amounts are recognized as warrants repurchase and charged as a deduction to liabilities for issuance of warrants. The warrants have six to twelve months exercise period from the date of issuance. The issuer has the option to settle either by cash or stock delivery.

21) Bonds sold under repurchase agreements

| | <u>December 31, 2022</u> | | <u>December 31, 202</u> | |
|---------------------|--------------------------|------------|-------------------------|-----------|
| Government bonds | \$ | \$ 919,875 | | 1,623,147 |

| Total | \$ | 2,784,086 | \$ | 4,983,139 |
| | | | | |

The Company deals in equity-linked products and combines fixed income instruments with call or put options. These products are categorized into ELN (Equity-Linked Notes) and PGN (Principal

Guaranteed Notes). On trade date, the contracted amounts are collected in full from the counterparties. The payout amount on maturity will depend on the price fluctuation of the instruments linked to these contracts and be calculated as trading price less option strike price on maturity. All the linked products are financial instruments under the supervision of the SFB (Securities and Futures Bureau).

25) Other liabilities-non-current

| | December 31, 2022 | | December 31, 2021 | |

| Net defined benefit obligation | | - | | 58,331 |
| Total | \$ | 23,315 | \$ | 81,750 |

26) Pension plan

A. Defined benefit plans

(A)The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. The Company contributes monthly an amount which ranges 7.2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the supervisory committee of workers' retirement reserve fund, and with Cathay United Bank, under the name of the management committee of employees' retirement fund. Also, the Company would assess the balance in the aforementioned labor pension reserve account by the end of December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method, to the employees expected to be qualified for retirement next year, the Company will make contributions to cover the deficit by next March.

(B) The amounts recognized in the balance sheet are as follows:

| | <u>Dece</u> | mber 31, 2022 | Dec | ember 31, 2021 |
|--------------------------------------------------|-------------|---------------|-----|----------------|

(D) The Bank of Taiwan was commissioned to manage the Fund of the Company's defined benefit pension plan in accordance with the Fund's annual investment and utilization plan and "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund" (Article 6: The scope of utilization for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private

placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilization of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator.

The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan asset fair value in accordance with IAS19 paragraph 142. The composition of fair value of plan assets as of December 31, 2022 and 2021 is given in the Annual Labor Retirement Fund Utilization Report published by the government. In addition, for retirement fund deposits with Cathy United Bank, under the name of the management committee of employees' retirement fund, the fund invests in time deposit accounts under Cathy United Bank.

(E) The principal actuarial assumptions used were as follows:

| | Year ended | Year ended |
|-------------------------|-------------------|-------------------|
| | December 31, 2022 | December 31, 2021 |
| Discount rate | 1.4% | 0.5% |
| Future salary increases | 3.5% | 2.5% |

Assumptions regarding future mortality rate are set based on the Taiwan Standard Ordinary Experience Mortality Table (2021) for the years ended December 31, 2022 and 2021. Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

| | Disco | unt rate | Future sala | ry increases |
|----------------------------|--------------------|------------------|------------------|--------------------|
| | Increase 0.25% | Decrease 0.25% | Increase 0.25% | Decrease 0.25% |
| December 31, 2022 | _ | | | |
| Effect on present value of | | | | |
| defined benefit obligation | (\$ 13,027) | \$ 13,399 | <u>\$ 11,397</u> | (\$ 11,157) |
| December 31, 2021 | _ | | | |
| Effect on present value of | | | | |
| defined benefit obligation | <u>(\$ 15,953)</u> | <u>\$ 16,424</u> | <u>\$ 14,065</u> | <u>(\$ 13,757)</u> |

(F) Pension fund contribution plans to pay \$32,472 for the year ended December 31, 2023.

B. Defined contribution plans:

Effective from July 1, 2005, the Company established a defined contribution plan pursuant to the "Labor Pension Act", which covers employees with R.O.C. nationality and those who chose or are required to apply the "Labor Pension Act". The contributions are made monthly based on not less than 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The payment of pension benefits is based on the employees' individual pension fund accounts and the cumulative profit in such accounts. The employees can choose to receive such pension benefits monthly or in lump sum. The pension costs

under defined contribution pension plans of the Company for the years ended December 31, 2022 and 2021 were \$71,705 and \$74,179, respectively.

27) Equity

A. Common stock

As of December 31, 2022, the Company's authorized capital was \$15,000,000 with a par value of \$10 (in dollars) per share. As of December 31, 2022 and 2021, the common stocks issued and the outstanding common stocks were both 1,455,831 thousand shares.

Movements in the number of the Company's ordinary shares outstanding are as follows:

(Expressed in thousands)

| | Year ended | Year ended |
|-----------------|-------------------|-------------------|
| | December 31, 2022 | December 31, 2021 |
| January 1 | 1,455,831 | 1,399,838 |
| Stock dividends | | 55,993 |
| December 31 | 1,455,831 | 1,455,831 |

The Board of Directors approved on March 23, 2021 and the shareholders' meeting resolved on July 20, 2021 to increase the Company's capital with an undistributed surplus of \$559,935, and issue 55,993 thousand ordinary shares with a par value of \$10 (in dollars) per share. The capital increase date is at September 1, 2021, the total issued share capital after the capital increase was \$14,558,313, divided into 1,455,831 thousand shares, each with a denomination of \$10 per share.

B. Capital reserve

| | | | | | Difference between | | | | | |
|-------------------|-------|---------|------|------------|---------------------|-----|-------------|---------------|----|--------|
| | | | | | consideration and | | | | | |
| | | | | | carrying amount of | | | | | |
| | | | Trea | sury share | Expired stock subsi | | subsidiarie | s acquired or | | |
| | Share | premium | trar | nsactions | options | | dis | posed | | Total |
| December 31, 2022 | \$ | 24,663 | \$ | 65,675 | \$ | 483 | \$ | 440 | \$ | 91,261 |
| December 31, 2021 | \$ | 24,663 | \$ | 65,675 | \$ | 483 | \$ | 440 | \$ | 91,261 |

Pursuant to the R.O.C. Company Law, capital reserve arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided it should not exceed 10% of the paid-in capital each year. Capital reserve should not be used to cover accumulated deficit unless the legal reserve is insufficient.

C. Legal reserve

Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the balance of the reserve exceeds 25% of the Company's paid-in capital.

D. Special reserve

In accordance with the "Rules Governing the Administration of Securities Firms", 20% of the current year's earnings, after paying all taxes and offsetting prior years' operating losses and plus the items other than the after-tax net profit for the period, that are included in the unappropriated earnings of the period, if any, shall be set aside as special reserve until the cumulative balance equals the total amount of paid-in capital. The special reserve shall be used exclusively to cover accumulated deficit or to increase capital and shall not be used for any other purpose. Such capitalization shall not be permitted unless the Company had already accumulated a special reserve of at least 25% of its paid-in capital stock and only quarter of such special reserve may be capitalized.

In accordance with the regulations, the Company shall set aside an equivalent amount of special reserve from accumulated unappropriated retained earnings of the current year based on the decreased amount of equity. If there is any subsequent reversal of the decrease in equity, the earnings may be distributed based on the reversal proportion.

In accordance with Jing-Guan-Zheng-Chuan Letter No. 10500278285 dated August 5, 2016, securities firms should set aside 0.5% to 1% of net income after tax as special reserve, upon the distribution of earnings from 2016 to 2018. From fiscal year 2017, special reserve as mentioned above may be reversed based on an amount equal to employees' transformation training expenditure, employee transfer and settlement expenditure arising from the development of Fintech. Further, according to Jing-Guan-Zheng-Chuan Letter No. 1080321644 dated July 10, 2019, securities firms are no longer required to set aside special reserve starting from 2019. And the special reserve, within the balance of special reserve set aside in the previous years, could be reversed at the same amount for the aforementioned expenditures.

28) Unappropriated earnings and dividends policy

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall be used to pay all taxes and offset prior years' operating losses first, and then set aside as legal reserve, accounted for as 10% of the remaining amount, and special reserve, accounted for as 20% of the remaining amount. Upon provision or reversal of special reserve in accordance with the law, any remaining amount together with unappropriated earnings at beginning of the period shall be distributed according to the following resolution adopted at the stockholders' meeting: Distribution shall not be made if the balance of distributable earnings is less than 5% of paid-in capital
- B. In addition, the total amount of dividends declared every year shall be at least 70% of distributable earnings, of which stock dividends shall be at least 50% and cash dividends shall be lower than 50%.
- C. The Company may determine a better proportion of cash and stock dividends distribution based on its actual operating conditions and capital utilization plan for the following year.

D. The earnings distribution for 2021 and 2020 as resolved by the Board of Directors on June 23, 2022 and July 20, 2021. Details are as follows:

| | | Year ended | | | Year ended | | |
|------------------------------------|----|-------------------|--------------|----|------------|-----------|----------|
| | | December 31, 2022 | | | December | 31, 2 | 2021 |

A. In accordance to the Company's Article of Incorporation, the remainder of the year-end income before taxes less income before appropriating employees' compensation and directors'

- remuneration, if any, shall appropriate an employees' compensation no less than 1.6% and directors' remuneration no more than 2%. However, when the Company has an accumulated deficit, earnings to cover the deficit shall first be retained before appropriating employees' compensation and directors' remuneration.
- B. For the years ended December 31, 2022 and 2021, employees' compensation was accrued at \$19,014 and \$94,748, respectively; directors' remuneration was accrued at \$19,014 and \$94,748, respectively. The aforementioned amounts were recognized in salary expenses.
- C. For the years ended December 31, 2022, employees' compensation was estimated at 2% and directors' remuneration at 2%, based on the period-end income before taxes less income before appropriating employees' compensation and directors' remuneration.
- D. The actual distributed amount of employees' and directors' remuneration for 2021 as resolved by the Board of Directors was in agreement with the estimates in the 2021 financial statements.
- E. Information on the appropriation of the Company's earnings as resolved by the Board of Directors would be posted in the "Market Observation Post System" on the Taiwan Stock Exchange Official website.

1) Management objective and policy of financial risks

A. Risk management objective

The Company continually strengthens risk culture to every employee and makes sure that the Company can actively develop various businesses under a healthy and effective risk management system. At the same time, by creating value of an entity and continually increasing profit, profit maximization may be achieved within appropriate risk tolerance.

B. Risk management system

In order to ensure the completeness of risk management system, run the balancing mechanism of risk management, and improve the division efficiency of risk management, the Company sets up "Risk Management Policy". Such policy aims to establish internal system compliance and the guiding tools for policies communication within the Company and enable every layer of the Company engaged in different tasks to identify, evaluate, monitor, and control various risks with establishment of consistent compliance rules for risks of each business so that the risks can be controlled within the limits set in advance.

The Company's risk management system covers risks incurred from businesses in and off the balance sheet, such as market risk, credit risk, liquidity risk, operating risk, legal risk, model risk, reputation risk and climate risk, which are all included in the risk management.

C. Risk management organization

Risk management organization: Board of Directors, Risk Management Committee, Risk Control Office, Business units and other related segments (such as Office of Auditing, Office of General Manager, Compliance segment, Legal segment, Finance segment, Settlement segment and General Affair segment) are in charge of planning, supervising and execution.

- (A) The Board of Directors should ensure the effectiveness of risk management and be responsible for the ultimate result and the following duties:
 - a. To establish proper risk management system, operating process, and risk management culture in the Company with allocation of necessary resource for better execution and operation.
 - b. Policy of risk management review.
 - c. Review and approval of business application, transaction authorization and risk limit.
- (B) The Risk Management Committee reports to the Board of Directors and is responsible for the following:
 - a. Review risk management policy.
 - b. Review the highest risk tolerance.
 - c. Submit regular reports to the Board of Directors in relation to the risk management status of the whole Company.
- (C) The General Manager supervises daily risk management of the entire Company and is responsible for the following:
 - a. Supervise and monitor daily risk management of the entire Company.
 - b. Approval of management exceptions.
- (D) Assets and Liabilities Committee reports to the General Manager and is responsible for the following:
 - a. Set up the ultimate guidelines for assets and liabilities management of the entire Company.
 - b. Analyze and control the entire Company's assets and liabilities portfolio.
 - c. Approval of various businesses' quotas.
 - d. Gather and analyze information on domestic and offshore interest rate, exchange rate, prosperity fluctuation, political and economic environmental changes, and predict the financial trend in the future.
- (E) Risk Control Office implements risk management policy and related regulations and reports to the Risk Management Committee. Risk Control Office also reports daily risk management to the General Manager and is responsible for the following:
 - a. Establish Risk Management Policy of the entire Company.
 - b. Develop effective method for measurement and risk management in an entity.
 - c. Review risk management system of business units.
 - d. Generate risk report through information gathering and consolidation.
 - e. Analyze various business risks and report to the General Manager.

- f. Report the risk management situation to the Risk Management Committee according to a meeting's nature and needs.
- g. Carry out duties as designated by the Risk Management Committee and control risks of business units.
- (F) Auditing Office is responsible for the following:
 - a. Execute operating risk control.
 - b. Include the risk management system into internal audit program and carry out the daily audit schedule.
 - c. Assess the effectiveness of internal control and verify the executed result.
- (G) Compliance segment and legal segment under the Office of General Manager are responsible for the following:
 - a. Compliance segment should make sure that the business operation and risk management system are in compliance with relevant regulations.
 - b. Legal segment is responsible for legal risk control.
 - c. Compliance segment also provides services of Anti-Money Laundering and Counter Terrorism Financing, including designs specification and internal control, establishes transaction monitoring, oversees the effective implementation of business units, conducts the employee training and reports any suspicion of money laundering.
- (H) Finance segment is responsible for the following:
 - a. Verify the correctness of position information and reasonability of profit and loss calculation.
 - b. Control and analyze self-owned capital adequacy ratio.
 - c. Analyze the appropriateness of structures of the assets and liabilities.
- (I) Business units are responsible for the following:
 - a. Set up risk management details of various businesses according to the risk management policy and other related regulations.
 - b. Provide sufficient position information and risk control information to the Risk Control Office.
- (J) Settlement division is responsible for the following:
 - a. Clearing and settlement; risk control and management of margin purchase and short sale of securities.
 - b. Risk control and management of trading middle office and enforcement of rules governing risk management of business segments.
- (K) General Affair segment is responsible for the following:
 - a. Verify and manage greenhouse gas.
 - b. Sustainable resources management, responsible procurement and supplier management.

D. Risk management policy

In order to ensure the completeness of risk management system, run the balancing mechanism of risk management, and improve the division efficiency of risk management, the Company sets up "Risk Management Policy". Such policy aims to establish internal system compliance and the guiding tools for policies communication within the Company and enable every layer of the Company engaged in different tasks to identify, evaluate, monitor, and control various risks with establishment of consistent compliance rules for risks of each business so that the risks can be controlled within the limits set in advance.

Risk management processes include risk identification, risk evaluation, risk supervision and various risk control. Each kind of risk evaluations and responding strategies are described as follows:

(A) Market risk management

The Company has implemented risk management information system (Risk Manager) in

relation to market risk control. All trading positions of the Company have been included in the daily risk control system for the calculation of Value at Risk (VaR). Limit exceeding indicators are mainly the nominal principal, stop-loss, sensitivity (Greeks) and VaR. The risk management report is presented on a daily basis for implementation of regular control and limit exceeding handling procedures.

(B) Credit risk management

In relation to risk control, the quantitative model of default rate adopts KMV model to calculate the default rate of issuers with credit exposure of the issuing company and the trading counterparties, and credit risk of securities disclosed in the report. The credit exposure is mitigated through regular review of credit status.

(C) Fund liquidity risk

Unit in charge of fund procurement regularly predicts future fund demand and supply, and consolidates company guarantee or endorsement and capital lending businesses to monitor the condition of fund procurement on a daily basis.

- (D) Settlement segment is responsible for confirming the settlement and clearing, accounts opening and the actual disbursement. Finance segment prepares vouchers based on the actual transaction evidence and compares whether the accounts and cash accounts are matched, and confirms the operating risks of accuracy of the transaction from an accounting perspective. Auditing segment is responsible for internal audit and internal control, and regularly samples and checks the performance of each unit.
- (E) Legal segment is responsible for reviewing of the Company's various derivative financial instrument contracts, ISDA and individual account contracts, etc. and handle all legal-related issues.

(F) Climate risks

The potential climate risk on investment position is estimated based on the two main risk indicators of climate risk, the physical risk and the transition risk. The Company complies with the policy guidelines set by the competent authorities and initiatives or guidelines internationally and generally recognised to enhance the quality and transparency of information disclosure.

E. Hedging and risk-offsetting strategy

- (A) Policies of hedging and risk mitigating are parts of the Company's risk management policies, and the hedging position and hedged trading position are supposed to be one portfolio, of which the gain and loss and risk information are measured on a consolidated basis.
- (B) The overall position (hedging position and trading position) is included in the daily risk management system to calculate Value at Risk and other relevant information. Limit exceeding indicators mainly include nominal principal, stop-loss point, price sensitivity and VaR. With the presentation of daily risk management report, routine control and limit exceeding treatment can be executed.
- (C) The continued effectiveness of hedging and risk-offsetting strategy is measured by the gain and loss of overall position (hedging position and trading position), in order to track reasonableness of the profit or loss of hedging position and the offsetting relationship with the profit or loss of trading position, and to control them within a reasonable range.

2) Credit risk

A. Source and definition of credit risk

The credit risk exposure of the Company as a result of engagement in financial transactions include issuer's credit risk, credit risk of counterparty and credit risk of underlying assets:

- (A) Credit risk of the issuer refers to the issuers of financial debt instruments held by the Company failing to repay its obligation due to the fact that the issuer breaches the contract resulting in the risk of financial loss to the Company.
- (B) Credit risk of counterparty refers to risk of financial loss to the Company arising from default by the counterparty of financial instruments on the settlement or payment obligation.
- (C) Credit risk of the underlying assets happens when the credit rating of the underlying assets linked to the financial instrument is downgraded by the rating agency or when the losses occur as a result of contract default.

The financial assets held by the Company which could result in credit risk include bank deposit, debt securities, derivatives transactions in OTC, bonds purchased/sold under resale/repurchase agreements, refundable deposit of securities lending, futures trade margins, other refundable deposits and receivables.

B. Maximum credit risk exposure and credit risk concentration

The maximum exposure to credit risk of financial assets in the parent company only balance sheet, without consideration of the collateral or other credit enhancements, is equivalent to the carrying amount. In Taiwan, the sources of credit risk of the Company are primarily resulting from cash deposited with banks or other financial institutions, debt securities issued or guaranteed by a bank, derivative instruments transaction underwritten by the Company, and all counterparties of customer margin deposits accounts being financial institutions. Credit risks of various financial assets are as follows:

(A) Cash and cash equivalents

Cash and cash equivalents include time deposit, demand deposits and checking deposits. Correspondent institutions are mainly domestic financial institutions.

- (B) Financial assets at fair value through profit and loss -current
 - a. Fund

The funds held by the Company are bond funds. As the positions held are not significant, credit risk is deemed low.

b. Commercial papers

The commercial papers held by the Company are repurchase agreements. As all the counterparties are financial institutions with good credit, the credit risk from counterparties is extremely low.

c. Debt securities

Debt securities are mainly positions like government bonds, corporate bonds, convertible corporate bonds and foreign bonds and the issuers are primarily R.O.C. government, domestic and foreign legal entities. 16% of convertible corporate bond is guaranteed by banks. Details are as follows:

(a)Government bonds

The bonds held by the Company are mostly government bonds (inclusive of central and local government). As a whole, the credit risk of the bonds held by the Company is low.

(b) Corporate bonds

The corporate bonds held by the Company are mainly underlying investment with good credit rating and those with rating above (S&P BB).

(c)Convertible corporate bond

The convertible corporate bonds held by the Company are mostly issued by the domestic legal entities. The Company mitigates highly risky credit exposure of the issuers by control through Taiwan Corporate Credit Risk Index (TCRI).

(d)Foreign bonds

The foreign bonds held by the Company are mainly underlying investment with good

credit rating and those with rating above (S&P BB).

(C) Financial assets at fair value through other comprehensive income – current The foreign government bonds held by the Company are classified as debt instruments at fair value through other comprehensive income. In general, the bonds held by the Company are with lower credit risk.

(D) Derivatives- futures trade margin

When engaging in futures trades in stock exchange market, the Company needs to deposit margin into a margin deposit account of a financial institution designated by the futures merchants as a guarantee to fulfil contractual obligation in the future. As a result, the credit risk is low.

(E) Derivatives-OTC

The Company signs International Swaps and Derivatives Association (ISDA) agreements with each counterparty when engaging in OTC derivatives as an agreement regarding such transactions for both parties. In the agreement, it provides a fundamental contractual model for OTC derivative transactions. If any party breaches the contract or terminates the transactions early, then all the open interest covered in the agreement should be settled by net amount as bound in the contract. When the ISDA agreement is signed, the Credit Support Annex (CSA) is also signed. According to the CSA, collateral will be transferred from a party to the other during transaction process to mitigate the risk of counterparty in open interest. Please refer to Note 6(9).

Types of OTC derivative transactions in which the Company is engaged include swap transaction. The counterparties are all from financial service industry and mainly located in Taiwan and United Kingdom.

(F) Bonds investment under a resale agreement

Bonds sold under a resale agreement are the bonds that the client sold to the Company at a price, interest rate, length of period as agreed by two parties and the client shall repurchase the bonds at the specified price upon maturity. The Company needs to assume credit risk from counterparties when underwriting such business, as the payment being delivered to the other party. With consideration of good collateral obtained, the net of credit risk exposure from counterparties can be effectively reduced. As all the counterparties are financial institutions with good credit rating, the credit risks from counterparties are extremely low. Please refer to Note 6(9).

(G) Margin loans receivable

Margin loans receivable are the loans provided to the client in order to process businesses of margin trading and short sale using the securities purchased through financing as collateral. The Company monitors the clients' margin ratio through information system on a daily basis. As the margin ratio of margin trading is set at 130% according to Regulations Governing the Conduct of Securities Trading Margin Purchase and Short Sale Operations by Securities Firms, the credit risk is extremely low.

(H) Receivables of securities business money lending

Receivables of securities business money lending are the non-restricted purpose loan business and monetary financing business, pursuant to an agreement between a securities firm and a customer, using customer securities and other commodities as collateral. The Group regularly assesses its customer line of credit and implements appropriate credit control. As the margin ratio of margin trading is set at 130% according to Regulations Governing the Conduct of Securities Trading Margin Purchase and Short Sale Operations by Securities Firms, the credit risk is extremely low.

(I) Guaranteed price for securities lending Guaranteed price for securities lending is the sale price of the Company's securities sold by other securities firms through margin trading after deduction of securities transactions tax and service fee, which is deposited in other securities firms as collateral. As all the counterparties are financial institutions with good credit rating, the credit risk from counterparties is extremely low.

(J) Refundable deposits for securities lending Refundable deposits for securities lending are the margins deposited in other securities firm as collateral when the Company's securities are sold. As all the counterparties are financial institutions with good credit, the credit risk from counterparties is extremely low.

(K) Receivables

Receivables are the credit rights arising from the securities business including settlement receivables of consignment trading, settlement receivables of operating securities sold, financing interest receivables of self-operating credit transaction, receivables of consignment trading for securities, and receivables from banks' underwriting on foreign exchange transactions and foreign fund demand. As the majority of the Company's receivables from the consignment businesses and self-operating businesses are settlement of securities from OCT or TWSE, the credit risk is extremely low. As the foreign exchange transactions are simply the receipt or payment of different currencies and the correspondent banks are of good credit rating, the credit risk is extremely low.

(L) Other current assets

Other current assets are mainly the collateral deposited in the bank for application for short-term debt limit and guarantee for application for issuance of commercial papers. As the correspondent banks are all financial institutions with good credit rating, the credit risk is extremely low.

(M) Financial assets at fair value through profit and loss – non-current In order to underwrite trust business, the Company deposits central government bonds in the Central Bank as collateral. Regardless of the bonds themselves or the financial institutions where the bonds deposited, the credit risk is extremely low.

(N) Other non-current assets

Other non-current assets mainly comprise operating guarantee deposits, settlement funds, and refundable deposits. Operating guarantee deposits are mainly deposited in domestic banks with good credit rating. Settlement funds are deposited in securities exchange. Settlement funds are used as compensation when a party to a marketable securities transaction fails to fulfil the settlement obligation. The credit risks from the institutions where these two assets are deposited are extremely low. The refundable deposits refer to cash or other assets which are deposited externally by the Company and can be used as refundable deposits. Because deposits are placed in various financial institutions and each deposit amount is small, the credit risk is dispersed and the credit exposure of overall refundable deposit is extremely low.

C. Expected credit loss assessment

In the assessment of impairment and calculation of expected credit losses, the Company considers reasonable and supporting information about past events, current conditions and future economic conditions. The Company determines at the balance sheet date whether there has been a significant increase in credit risk since initial recognition or whether credit impairment has occurred and recognizes expected credit loss according to which stage the asset belongs: no significant increase in credit risk or low credit risk at balance sheet date (Stage 1), significant increase in credit risk (Stage 2), and credit impaired (Stage 3). 12-month expected credit losses are recognized for assets in Stage 1, and lifetime expected credit losses are recognized for assets

in Stage 2 and Stage 3. The definition of and expected credit losses recognized for each stage are as follows:

| Item | Stage 1 | Stage 2 | Stage 3 |
|--------------------|--------------------------|-----------------------|---------------------------|
| Definition | No significant | Significant | The financial asset is |
| | deterioration of credit | deterioration of | credit impaired at the |
| | quality of the financial | credit quality of the | financial reporting date. |
| | asset since initial | financial asset since | |
| | recognition, or the | initial recognition, | |
| | financial asset is | but the asset is not | |
| | considered low-risk at | yet credit impaired. | |
| | the balance sheet date. | | |
| Expected credit | 12-month expected | Lifetime expected | Lifetime expected |
| losses recognition | credit losses | credit losses | credit losses |

(A) Judgements of the significant increase in credit risk since initial recognition

Judgements and assumptions used to determine whether the credit risk has a significant increase since initial recognition when the Company calculates expected credit loss under IFRS 9 are as follows:

- a. If contractual payments are over 30 days past due according to the payment terms, the financial asset is considered to have significant increase in credit risk since initial recognition.
- b. There is significant increase in credit risk at the reporting date if the credit rating of the issuer has been downgraded by more than 2 grades and the final external credit rating at the reporting date is non-investment grade, if the interest payments are over 30 days past due, or if there has been a default in the past.

(B) Definition of default and credit-impaired financial assets

According to the definition of credit impairment set by IFRS 9, a financial asset is credit-impaired when one or more events that have occurred and have a significant impact on the expected future cash flows of the financial asset. The criteria used to judge whether a financial asset is credit-impaired since initial recognition includes but is not limited to the following:

- a. Contractual payments or principal or interest payments on bonds are over 3 months (90 days) past due.
- b. Bond investment is rated as "in default" by external credit rating agencies.
- c. Bond issuer has filed for bankruptcy, restructure, or other debt clearance procedures.
- d. Issuer or counterparty has financial difficulties.

(C) Writing-off policy

If any of the following condition applies, the Company will write off the non-recoverable portion of the overdue receivables as bad debt.

- a. Debt cannot be fully or partially recovered due to dissolution of, disappearance of, settlement with, bankruptcy declaration by the debtor, or any other reason.
- b. The collateral and the assets of the primary and secondary debtors could not be auctioned off after multiple attempts and multiple price discounts, and the Company has not received any real benefits in assuming the collateral.
- c. Payments are over two years past due and could not be recovered after attempts to collect.

(D) Measurement of expected credit losses

The Company considers reasonable supporting information which shows significant increase in credit risk since initial recognition when calculating expected credit losses. Main indexes include: internal/external credit rating, information of past due, credit spread, other market information in relation to the borrower, issuer or counterparty, and significant increase in credit risk of other financial instrument of the same borrower.

Investments in bills and bonds

- (a)Probability of default was based on external credit rating, which include forward-looking information.
- (b)Loss given default was based on the average loss given default of external credit rating of investment position and counterparties.
- (c)Exposure at default

Stage 1, Stage 2 and Stage 3: Total carrying amount (including interest receivable).

(E) Consideration of forward-looking information

Historical loss rate (based on the historical experience in the past 3 to 5 years) as obtained and compared with economic environment in the past, nowadays and future (forward-looking factor) to see whether there is any significant change, and then to properly adjust future loss rate standards. If any significant default event occurs, the loss rate in the current year will be included in the calculation of future loss rate standard.

D. Table of movements in loss provision of the Company

(A) For the years ended December 31, 2022 and 2021, there were no changes in the loss allowance for investments in debt instruments measured at fair value through other comprehensive income.

(B) Except for debt investments and its interest receivable, the Company applies the modified approach to measure the loss allowance at an amount equal to lifetime expected credit losses for receivables and overdue receivables. The movements in loss provision of marginal receivables, accounts receivable, other receivables-others and other non-current assets-overdue receivables of the Company are as follows:

| | Year ended December 31, 2022 | | | | | | | | | | | |
|---------------------------|------------------------------|------|--------|-------------|-----------|----------------|-----------------|----|---------|--|--|--|
| | | | | | | Ot | her non-current | | | | | |

| At December 31 | \$ 47,433 | \$ | 742 | \$ | - | \$ | 12,517 | \$ | 60,692 | | | |

3) Liquidity risk

A. Definition and source of liquidity risk

Liquidity risk refers to possible financial losses arising from the inability to realize the asset or to obtain sufficient fund to fulfil the financial liabilities soon to be matured. Above situations may weaken the sources of cash from the Company's trading and investment activities.

B. Liquidity risk management procedure and stimulation test

In order to prevent operational crisis as a result of liquidity risk, the Company has established responding crisis process with regular monitoring over liquidity gap of fund.

(A) Procedure

In addition to the operating capital for various business and long-term investment, the Company needs to maintain revolving funds at a certain level for daily operation. The use of remaining fund shall avoid high concentration and should be based on the principle of holding sound earning assets with high liquidity and treated in compliance with policies of the Company.

The responsive unit for fund procurement adjusts the liquidity gap to ensure proper liquidity according to the daily volume and movement in the market.

(B) Stimulation test

a. The Company reviews fund liquidity risk from a perspective of supply and demand of fund every month with simulation analysis of available fund for emergency including

- scenario analysis of cash, funding limit of financial institutions, margin loans and short sale, and value of disposal of position in order to compute maximum available fund and fund demand. Finally, safety stock of fund is reviewed to monitor liquidity risk.
- b. Above liquidity risk is generally reviewed monthly. However, if the available limit of increment banking credit risk in financing limit of a financial institution is lower than a certain amount (that is, the amount may be timely adjusted according to the fund liquidity in the market and the actual fund demand and supply in an entity), the safety stock will be reviewed weekly. After the early warning report for fund is submitted, the head of finance segment will call for a fund control meeting.
- c. Other than individual funding liquidity risk of an entity, stress test of minimization funding supply and maximization funding demand in the event of significant crisis is simulated, including:
 - (a) When there is a significant crisis in the market, the financing limit of the financial institutions and the value of disposal of position can be deemed the minimized ratio of fund supply which is then adjusted according to actual condition to compute the total fund supply under maximum stress.
 - (b)Except for the operating expense, the stock concept is adopted for the calculation of total fund demand under maximum stress.
 - (c) The Company should conduct a review to see whether the total minimized fund supply is more than maximized total fund demand. The Company should further review how long (by month) the difference may cover the operating expenses so that the safety stock of fund (by month) under stress test can be computed.
 - (d)The minimum safety stock of fund under stress test (by month) may be adjusted according to the crisis itself and only operating expense for at least 6 months under a normal stimulation can be deemed safe.
- C. Maturity analysis for the financial assets and financial liabilities held for liquidity risk management
 - (A) The Company holds cash and sound earning assets with high liquidity in order to fulfil the payment obligation and potential emergency fund demand in the market. Financial assets held for liquidity risk management are mainly cash and cash equivalents, among which, all time deposits mature within a year. Financial assets at fair value through profit and loss are mainly listed stocks, convertible bonds and debt securities. As all of them have positions in active market, the liquidity risk is deemed low.

(B) Maturity analysis for the financial liabilities is as follows:

| | December 31, 2022 | | | | | | | | | | |
|---------------------------------------------|-------------------|---------------|--------------|------------|---------------|--|--|--|--|--|--|
| | | Less than | | | | | | | | | |

4) Market risk

A. Definition of market risk

Market risk refers to the risk of decrease in the Company's revenue or value of investment portfolio as a result of the changes in exchange rate, commodity price, interest rate, and stock price or other market risk factors.

The Company continually exercises risk management tools such as sensitivity analysis, Value at Risk, stress test and so on to completely and effectively measure, monitor and manage market risk.

B. Value at Risk (VaR)

Value at Risk is used to measure the possible maximum potential losses in investment portfolio as a result of movement in market risk factor in a specified period and confidence level. The Company currently uses confidence level of 95% to calculate Value at Risk of one day.

A VaR model must reasonably, completely and accurately measure the maximum potential risks of financial instruments or investment portfolio before being adopted as a risk management model by the Company. The VaR model used in risk management is continually certified and retrospectively tested to demonstrate that the model can reasonably and effectively measure the maximum potential risks of financial instruments or investment portfolios.

| Others | | 3,883,547 | | 26 | | 40,178 | | 308,104 | | 8,667 | | 5,437 | 4,245,959 |

Note: As of December 31, 2021, foreign exchange rates of the above currencies to TWD were 1 USD = 27.680 TWD; 1 EUR = 31.320 TWD; 1 AUD = 20.080 TWD; 1 RMB = 4.344 TWD; and 1 HKD = 3.549 TWD, respectively.

D. The total exchange gain (loss), including realized and unrealized, arising from significant foreign exchange variation on the monetary items held by the Company for the years ended December 31, 2022 and 2021, amounted to \$106,384 and \$179,749, respectively.

5) Fair value and hierarchy information

A. Financial instruments and non-financial instruments not measured at fair value.

Except for those listed in the table below, the carrying amounts of the Company's financial instruments not measured at fair value (including cash and cash equivalents, bonds purchased under resale agreements, margin loans receivable, refinancing guaranty deposits, guaranteed proceeds receivable from refinancing, guaranteed price deposits for security borrowing, security borrowing deposits, customer margin deposit account, notes and accounts receivable, other receivables, short-term loans, commercial paper payable, bonds sold under repurchase agreements, guarantee deposit received from short sales, guaranteed price deposits received from securities borrowers, security borrowing deposits, equity of futures traders, accounts payable, collection for others, and other payables) approximate their fair values. The fair value information of financial instruments measured at fair value is provided in Note 12(5)3.

| | | Qu | oted prices of | | | | | |
|--------------------------|---------------|--------------------------------------|----------------|-----|----------------|------------------|--|--|
| | | the same assets in Other significant | | | | Significant | | |
| | | ac | tive markets | obs | ervable inputs | non-observable | | |
| | Total | | (level 1) | | (level 2) | inputs (level 3) | | |
| Non-financial assets | | | | | | | | |
| <u>December 31, 2022</u> | | | | | | | | |
| Investment property | \$ 743,741 | \$ | - | \$ | 743,741 | \$ - | | |
| <u>December 31, 2021</u> | | | | | | | | |
| Investment property | 712,476 | | - | | 712,476 | - | | |

The fair value of investment property held by the Company was assessed by external valuation experts using comparison approach and income approach, or the fair value can be assessed based on the market price of the area adjacent to the location where the Company's investment property is located.

B. Valuation techniques

(A) For financial instruments held for trading purposes which are classified as non-derivative instruments, their fair values are based on their quoted prices in an active market. If there is no quoted market price for reference, a valuation technique will be adopted to measure the fair value. Estimates and assumptions of valuation technique adopted by the Company are in agreement with the information of estimates and assumptions adopted by market users for financial instrument pricing and the said information shall be accessible to the Company. For those classified as derivative instruments, their fair values are based on their market prices if their quoted prices are available from an active market. If quoted market prices in an active market are not available, SWAP and IRS are valued

at the discounted cash flow method, and options are valued at the Black-Scholes model.

(B) When available-for-sale financial assets have quoted market prices available in an active market, the fair value is determined using the market price.

C. Fair value hierarchy of the financial instruments

(A)Definitions for the hierarchy classifications of financial instruments measured at fair value

a. Level 1

Level 1, are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date. An active market has to satisfy all the following conditions: a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The Company's investments in listed stocks, beneficiary certificates, on-the-run Taiwan central government bonds and derivative instruments with quoted market prices, are deemed as level 1.

b. Level 2

Inputs other than quoted market prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Investments of the Company such as off-the-run issue of emerging stock, government bonds, corporate bonds, bank debentures, convertible corporate bonds, currency swaps, interest rate swaps, options, asset swaps, and most derivatives are all classified within level 2. For the years ended December 31, 2022 and 2021, there was no significant transfer of financial instruments between Level 1 and Level 2.

c. Level 3

Unobservable inputs for the assets or liability. The fair value of the Company's investment in unlisted stocks is included in Level 3.

(Blank below)

(D) The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

| December 31, 2022 | Fair value | Valuation technique | Significant unobservable input | (weighted average) | Relationship of inputs to fair value |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|---------------------|----------------------------------------------------|--------------------|--------------------------------------------------------------------------------------|
| Financial assets at fair value through profit or loss - non-current Venture capital shares | \$ 16,604 | Net asset value | Not applicable | Not applicable | Not applicable |
| Financial assets at fair value through other comprehensive income - non-current | | | | | |
| | | | Market price net profit after tax multiplier | 23.03~24.62 | |
| Unlisted stocks | 294,855 | Market approach | Price to book ratio multiplier | 2.93~4.92 | The higher the multiple, the higher the fair value |
| | | | Discount for lack of marketability | 20%~30% | The higher the discount for lack of marketability, the lower the fair value |
| | | Valuation | Significant | (weighted | Relationship of |
| December 31, 2021 | Fair value | technique | unobservable input | average) | inputs to fair value |
| Financial assets at fair value through profit or loss - non-current Venture capital shares Financial assets at fair value through other comprehensive income - non-current | \$ 12,650 | Net asset value | Not applicable | Not applicable | Not applicable |
| | | | Price to book ratio multiple | 1.80~2.27 | The higher the multiple,the higher the fair value |
| Unlisted stocks | 258,627 | Market approach | Discount for lack of marketability | 6.24%~9.17% | The higher the discount for lack of marketability, the lower the fair value |

(E) Valuation process for fair value at Level 3

The parent company's risk management department is responsible for the verification of fair value categorized in Level 3. The department assesses the independence, reliability, consistency and representativeness of the source information, regularly verifies the valuation models and calibrates the parameters to ensure the valuation process and results are in compliance with IFRSs.

(F) For the fair value measurement of Level 3, the sensitivity analysis of the fair value to the reasonable alternative hypothesis shows that the fair value measurement of the financial assets by the Company is reasonable. However, use of different valuation models or assumptions may

result in different measurement. The following is the impact to profit or loss or to other comprehensive income from financial assets and liabilities categorized within Level 3 if the inputs used in valuation models have changed up or down by 1%:

| | | | Recognised in other | | | |

6) Capital management

A. Objective of capital management

- (A) The represented capital adequacy ratio basically shall not be lower than 200% in compliance with the warning standard addressed in the "Rules Governing Securities Firms".
- (B) The Company includes all risks involved in the investment position as a part of risk management, such as market risk, credit risk, liquidity risk, operating risk, legal risk, and model risk and so on. Each risk management responsive unit should identify, evaluate, monitor and control various risks in order to enable the Company to defend impact from financial market, reflect the current operating strategies and make the investment portfolio applied to business planning and development.

B. Capital management policy and procedure

In order to secure the long-term and stable development of various businesses and effectively assume risks, the Company manages capital based on the business development, related regulations and financial market environment. Major capital evaluation processes include:

- (A) Each segment should provide accurate and valid source of information to maintain calculation accuracy of capital adequacy ratio.
- (B) After the reporting at the 10th of each month, capital adequacy ratio should be computed by the end of every month. If the result is close to the legal standard, every unit will be called to attend a meeting for discussion and strategic planning to ensure that the basic objective of capital adequacy ratio is not less than 200%.
- (C) Both the risk limits and economic capital of the Company should be agreed by the Board of Directors. The Company should quarterly report details of risk control with disclosure

of investment condition in order to assess whether the risk position exceeds the limit and whether the investment direction is in line with the market trend. Within the authorized risk limits, the Company is actively engaged in development of various businesses and continually increases profit, creates company value, and complies with the capital management objective.

The Company calculates and reports the capital adequacy ratio according to "Rules Governing Securities Firms". As of December 31, 2022 and 2021, the capital adequacy ratios were 390% and 379%, respectively, as required by the regulations.

7) Assets and liabilities of trust accounts

Pursuant to Article 17 of Enforcement Rules of the Trust Enterprise Act, balance sheet, income statement, and property list of trust accounts shall be disclosed in the parent company only financial statements on a semiannual basis.

A. Balance sheet of trust accounts

Note 1: Investment methods are classified into the following three categories; fill in the number of category each case belongs to:

- (1) Directly invest in a company in Mainland China.
- (2) Through investing in an existing company in the third area, which then invested in the investee in Mainland. (Please indicate investment company in the third area.)
- (3) Others.

- Note 2: In the 'Investment income (loss) recognized by the Company for the year ended December 31, 2022' column:
 - (1) It should be indicated if the investee was still in the incorporation arrangements and had not yet any profit during this period.
 - (2) Indicate the basis for investment income (loss) recognition in the number of one of the following three categories:.
 - a. The financial statements that are audited and attested by international accounting firm which has cooperative relationship with accounting firm in R.O.C.
 - b. The financial statements that are audited and attested by R.O.C. parent company's CPA.
 - c. Others.
- Note 3: The numbers in this table are expressed in New Taiwan Dollars.
- Note 4: The paid-in capital of Jin Yuan President Securities Co., Ltd. is CNY 1.5 billion.

5) Major shareholder information

| Major shareholder | Number of shares held (thousands) | Shareholding ratio |
|---------------------------------|-----------------------------------|--------------------|
| Uni-President Enterprises Corp. | 417,516 | 28.67% |

- Note 1: The information of major shareholders in this table is based on the last business day of the end of each quarter by Taiwan Depository and Clearing Corp., which determines shareholders holding more than 5% of ordinary shares and special shares of securities firms that have completed unregistered delivery (including treasury shares). As for the share capital recorded in the financial report of the securities firm and the actual number of shares delivered by the securities firm without physical registration, there may be differences due to different calculation bases.
- Note 2: In the case of the above information, if a shareholder delivers shares to the trust, it is disclosed in individual accounts by the trustee who opened the trust account by the trustee. As for the shareholders' declaration of insider's shareholding in accordance with the Securities and Exchange Act, their shareholding includes their own shareholding plus the shares delivered to the trust and the right to use the trust property. For information on insider's equity declaration, please refer to the Market Observation Post System.

PRESIDENT SECURITIES CORPORATION

STATEMENT OF EMPLOYEE BENEFITS, DEPRECIATION, AMORTIZATION, AND OTHER OPERATING EXPENSES FOR THE YEAR ENDED DECEMBER 31, 2022

(Expressed in thousands of New Taiwan dollars)

| Item | 2022 | 2021 | Remark |
|----------------------------|-----------------|-----------------|--------|
| Employee benefits expense | _ | _ | |
| Salaries | \$ 1,753,326 | \$ 3,086,536 | |
| Labor and health insurance | 146,112 | 153,773 | |
| Pension | 75,332 | 78,079 | |
| Director' remuneration | 49,575 | 140,571 | |
| Other employee benefits | 117,595 | 156,127 | |
| Depreciation expenses | 179,026 | 150,889 | |
| Amortization expenses | 45,082 | 24,676 | |
| Other operating expenses | 1,636,888 | 1,851,991 | |

Note:

- 1. In 2022 and 2021, the Company had 1,463 and 1,447 employees, respectively, in which directors not concurrently serving as employees were both 19.
- 2. The annual parent company only financial statements shall additionally disclose the information below:
 - (1) Average employee benefits expense of this year is \$1,449 ((a total sum of employee benefits expenses in this year a total sum of remunerations of directors in this year) / (number of employees in this year number of nonemployee directors in this year)).
 - Average employee benefits expense of the previous year is \$2,433 ((a total sum of employee benefits expenses in the previous year a total sum of remunerations of directors in the previous year) / (number of employees in the previous year number of non-employee directors in the previous year)).
 - (2) Average salary of this year is \$1,214 (a total sum of salaries in this year / (number of employees in this year number of non-employee directors in this year)).
 - Average salary of the previous year is \$2,161 (a total sum of salaries in the previous year / (number of employees in the previous year number of non-employee directors in the previous year)).
 - (3) Change of average salary is a decrease of 43.82% ((average salary in this year average salary in the previous year) / average salary in the previous year).
- 3. For the years ended December 31, 2022 and 2021, director' remuneration service payment (under "other operating expense") were both \$1,100.
- 4. For the years ended December 31, 2022 and 2021, supervisors' remuneration were both \$0. Because of the establishment of Audit Committee, there's no supervisors' remuneration.
- 5. The remuneration policy of the Company (Including directors, supervisors, managers and employees):
 - (1)Directors: Pursuant to Article 19 of the Company's Articles of Incorporation, the remuneration to director is determined by the board of directors by taking into the degree of participation in the company's operations, contribution and industry standards.
 - Independent directors receive fixed pay monthly and do not participate in the distribution of company directors' remuneration.
 - (2)Managers and employees: Pursuant to Article 37 of Work Rules, the Company's remuneration policy is to fairly compensate employees' contribution to the company, to offer competitive salary among peers, to meet relevant laws and regulations related to salary and to properly control salary cost.

PRESIDENT SECURITIES CORPORATION AND SUBSIDIARIES - FUTURES SEGMENT NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANIZATION

The Segment started to operate future contract dealing business in June 2003.

2. <u>THE DATE OF AUTHORISATION FOR ISSUANCE OF THE FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION</u>

These parent company only financial statements were authorized for issuance by the Board of Directors on March 8, 2023.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") that came into effect as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments that came into effect as endorsed by FSC and became effective from 2022 are as follows:

| | Effective Date by |
|----------------------------------------------------------------------------------|--------------------------|
| | International Accounting |
| New Standards, Interpretations and Amendments | Standards Board |
| Amendments to IFRS 3, 'Reference to the conceptual framework' | January 1, 2022 |
| AmendmentstoIAS16, 'Property, plant and equipment: proceeds before intended use' | January 1, 2022 |
| AmendmentstoIAS37, 'Onerous contracts—cost of fulfilling a contract' | January 1, 2022 |
| Annual improvements to IFRS Standards 2018–2020 | January 1, 2022 |

The above standards and interpretations have no significant impact to the Segment's financial condition and financial performance based on the Company's assessment.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Segment

New standards, interpretations and amendments that came into effect as endorsed by FSC effective from 2023 are as follows:

| | Effective Date by |
|-----------------------------------------------------------|--------------------------|
| | International Accounting |
| New Standards, Interpretations and Amendments | Standards Board |
| Amendments to IAS 1, 'Disclosure of accounting policies' | January 1, 2023 |
| Amendments to IAS 8, 'Definition of accounting estimates' | January 1, 2023 |
| Amendments to IAS 12, 'Deferred tax related to assets and | January 1, 2023 |
| liabilities arising from a single transaction' | January 1, 2025 |

The above standards and interpretations have no significant impact to the Segment's financial condition and financial performance based on the Company's assessment.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs endorsed by the FSC are as follows:

| | Effective Date by |
|---------------------------------------------------------------------------------------------|--------------------------|
| | International Accounting |
| New Standards, Interpretations and Amendments | Standards Board |
| Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets | To be determined by |
| between an investor and its associate or joint venture' | International Accounting |
| | Standards Board |
| Amendments to IFRS 16, 'Lease liability in a sale and leaseback' | January 1, 2024 |
| IFRS 17, 'Insurance contracts' | January 1, 2023 |
| Amendments to IFRS 17, 'Insurance contracts' | January 1, 2023 |
| Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information' | January 1, 2023 |
| Amendments to IAS 1, 'Classification of liabilities as current or non-current' | January 1, 2024 |
| Amendments to IAS 1, 'Non-current liabilities with covenants' | January 1, 2024 |

The above standards and interpretations have no significant impact to the Segment's financial condition and financial performance based on the Company's assessment.

4. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u>

The principal accounting policies applied in the preparation of the Company's financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The financial statements of the Segment has been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Futures Commission Merchants.

(2) Basis of preparation

- A. Except for the following items, these financial statements have been prepared under the historical cost convention:
 - (A) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (B) Defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligations.

B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretation that came into effect as endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 5.

(3) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
 - (A) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
 - (B) Assets held mainly for trading purposes;
 - (C) Assets that are expected to be realized within twelve months from the balance sheet date;
 - (D) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
 - (A) Liabilities that are expected to be paid off within the normal operating cycle;
 - (B) Liabilities arising mainly from trading activities;
 - (C) Liabilities that are to be paid off within twelve months from the balance sheet date;
 - (D) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(4) Translation of foreign currency transactions

A. Foreign currency translation and presentation

Items included in the financial statements of the Segment are measured using the currency of the primary economic environment in which the Segment operates (the "functional currency"). Functional currency and bookkeeping currency of the Company is New Taiwan Dollars.

B. Foreign currency transactions and balances

Foreign currency transactions denominated in a foreign currency or required to settle in a foreign currency are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Assets and liabilities denominated in foreign currency are translated by the closing exchange rate at balance sheet date. The closing exchange rate is determined by the market exchange rate. Non-monetary assets and liabilities denominated in foreign currencies which are carried at historical cost are re-translated at the exchange rates prevailing at the original transaction

date. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet

(5) Cash and cash equivalents

- A. In the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with banks, and other short-term highly liquid investments.
- B. Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(6) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortized cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Segment_measures the financial assets at fair value and recognizes the transaction costs in profit or loss. The Segment_subsequently measures the financial assets at fair value and recognizes the gain or loss in profit or loss.
- D. The Segment_recognizes the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Segment_and the amount of the dividend can be measured reliably.

(7) Financial liabilities at fair value through profit or loss

- A. Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorized as financial liabilities held for trading unless they are designated as hedges.
- B. At initial recognition, the Segment measures the financial liabilities at fair value. All related transaction costs are recognized in profit or loss. The Segment subsequently measures these financial liabilities at fair value with any gain or loss recognized in profit or loss.

(8) Income tax

A. Current income tax

Income tax payable (refundable) is calculated on the basis of the tax laws enacted in the countries where a company operates and generates taxable income. Except for the transactions or other matters directly recognized in other comprehensive income or equity, in which cases the related income taxes in the period are recognized in other comprehensive income or directly derecognized from equity, all the others should be recognized as income or expense for the period.

B. Deferred income tax

Deferred income tax assets and liabilities are measured based on the tax rate of the anticipated period that the future assets realization or the liabilities settlement requires, which is based on the effective or existing tax rate at the balance sheet date. The carrying amounts and temporary differences of assets and liabilities included in the balance sheet are calculated using the liability method and recognized as deferred income tax. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit (loss). Deferred income tax assets are recognized only to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilized. If the future taxable income is probable to provide unused loss carryforwards or deferred income tax credit which can be realized in the future, the proportion of realization is deemed as deferred income tax asset.

- C. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Segment_operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions for income tax liabilities where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- D. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.

5. <u>CRITICAL ACCOUNTING JUDGEMENTS</u>, <u>ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY</u>

The preparation of these Segment financial statements requires management to make critical judgements in applying the Segment's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

6. <u>DETAILS OF SIGNIFICANT ACCOUNTS</u>

(1) Cash and cash equivalents

| | December 31, 2022 | | December 31, 2021 | |
|-----------------------------------------------------------------|-------------------|-----------|-------------------|-----------|
| Current deposits | \$ | 76,746 | \$ | 45,405 |
| Time deposits | | 1,061,565 | | 1,125,900 |
| | \$ | 1,138,311 | \$ | 1,171,305 |
| 2) <u>Financial assets at fair value through profit or loss</u> | | | | |

(2)

| | December 31, 2022 | | December 31, 2021 | |
|---------------------------------------|-------------------|-----------|-------------------|-----------|
| Investment securities | \$ | 27 | \$ | 27 |
| Valuation adjustment | (| 27) | (| 27) |
| Subtotal | | | | <u> </u> |
| Futures guarantee deposits receivable | | 4,574,974 | | 3,901,281 |
| Options bought | | 8,893 | | 24,903 |
| | \$ | 4,583,867 | \$ | 3,926,184 |

Futures guarantee deposits receivable is guarantee deposit for future contract of the Segment.

(3) Inter-department account

It's money transfer among other segments.

(4) Operating capital

As of December 31, 2022, the operating capital of the Segment is \$1,300,000.

7. <u>RELATED PARTY TRANSACTIONS</u>

(1) Names of related parties and relationship

Note: Futures contracts are contract value when trading future contracts; Options contracts are premium received or paid when buying or selling options. Losses are borne by the future merchants of trading counterparties when transaction of stock index futures default, so the credit risk of the Segment is low.

(Blank below)

B. Market price risk

- (A) The Company deals in index options, stock options stock index futures, treasury bond future and commercial paper rate futures. Market risk is influenced by the changes of the products mentioned above. Each contract has its fair value. The Segment has set up stop-loss point during operations and the losses should be within the expected range, so there is no significant market price risk.
- (B) The foreign exchange exposure of the Futures Segment was as follow:

| | | | | | | De | ecen | nber 31, 20 | 022 | | | | |
|------------------------------------------|------|-----------|------|--------------|-----|-----------|------|-------------|-----|------------|------|--------|---------------|

C. The amount, period and uncertainty of liquidity risk, cash flow risk and future cash demand: As of December 31, 2012, the option and futures open positions held by the Segment can be closed at a reasonable price in the market, so the risk of liquidity is low. The guarantee deposit margin transaction.

The guarantee deposits have been paid before the future margin trading. It is evaluated daily based on the open positions of futures contract established by the company. If the margin calls are required, the company's operating capital is sufficient. Therefore, there is no financing risk, and the cash flow risk is low.

The premium has been paid (received) before the option trading. If the counterparties exercise the call option, the company's operating capital is sufficient. Therefore, there is no financing risk and cash flow risk.

D. Types of derivatives, purpose and strategy for achieving the purpose:

The Company is concurrent operation of futures business. The futures and options for the purpose of trading, the Company mainly operates spread trading and combined strategy transactions. It uses the correlation between futures, options and spot prices to operates simultaneously, and establish a hedge position when the market changes greatly to increase the profit stability of the overall position. The futures and options for the purpose of hedging, the hedging strategy of the Segment is to achieve the purpose of avoiding most of the market price risk. They are highly negatively related to the fair value of the hedged items and the hedging instrument are regularly evaluated.

E. Derivatives in financial statements:

(A) Margin deposits for the futures contract

Futures guarantee deposits receivable Excess margin

| Dece | mber 31, 2022 | De | cember 31, 2021 |
|------|---------------|----|-----------------|
| \$ | 4,574,974 | \$ | 3,901,281 |
| \$ | 3,622,064 | \$ | 3,265,990 |

(B) Net gain (loss) from derivatives-future

| | Ye | ear ended |) | ear ended |
|-----------------------|-------|---------------|------|---------------|
| | Decem | nber 31, 2022 | Dece | mber 31, 2021 |
| Futures contract gain | \$ | 806,635 | \$ | 1,286,051 |
| Option trading gain | | 341,741 | | 477,154 |
| Futures contract loss | (| 775,049) | (| 1,062,451) |
| Option trading loss | (| 250,195) | () | 573,866) |
| Total | \$ | 123,132 | \$ | 126,888 |

(2) Fair values and hierarchy information

A. Financial instruments measured at fair value

Except for those listed in the table below, the carrying amounts of the Segment's financial instruments not measured at fair value (including cash and cash equivalents, accounts receivable, other receivable, operation guaranteed deposits, accounts payables and other

payables) approximate their fair values. The fair value information of financial instruments measured at fair value is provided in Note 12(2)2.

B. Fair value hierarchy of the financial instruments

(A) Definitions for the hierarchy classifications of financial instruments measured at fair value a. Level 1

Level 1, are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Segment can access at the measurement date. An active market has to satisfy all the following conditions: a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

b. Level 2

Inputs other than quoted market prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. For the years ended December 31, 2022 and 2021, there was no significant transfer of financial instruments between Level 1 and Level 2.

c. Level 3

Unobservable inputs for the assets or liability. The Segment has no unlisted stocks.

(B) Hierarchy of fair value estimation of financial instruments

| Financial instruments measured at fair value | | December 31 | , 2022 | |

14. PROSPECTIVE RISK FOR FUTURES TRADING

The main risk faced by the Group while engaging in self-operating businesses is market price risk- that is risk of changes in market prices of futures or options contracts as a result of fluctuation in underlying investment index. Losses may occur if the market index price and underlying investment move adversely. However, the Company has set up stop-loss point to control such risk for reasons of risk management.

15. <u>OTHER</u>

None

16. OTHER DISCLOSURE ITEMS

- 1) <u>Information about significant transactions</u>
 - A. Lending to others: None.
 - B. Endorsements and guarantees for others None.
 - C. Acquisitions of real estate exceeding \$300 million or 20 percent of contributed capital None.
 - D. Disposals of real estate exceeding \$300 million or 20 percent of contributed capital None.
 - E. Purchases or sales transactions discount on brokers' charges with related parties in excess of \$5 million None.
 - F. Receivables from related parties exceeding \$100 million or 20 percent of contributed capital None.
 - G. Significant transactions between parent company and subsidiaries are provided in Note 7.
- 2) Related information of investee companies

None.

3) Disclosure of investment in Mainland China

None.
